

## NEW MERCHANT MARINE ACT IS DANGEROUS

So Sec. Payne Tells U. S. Chamber of Commerce

## NOT KNOWN WHAT GOVERNMENT WILL DO

WASHINGTON, Aug. 30.—(By the Associated Press.)—The United States may find itself without trade rights in other countries if section thirty-four of the new merchant marine act is carried out, Secretary Payne, of the interior department, warned in a recent letter to the chamber of commerce of the United States, a copy of which became available here today.

"I wonder," Mr. Payne wrote, "if the chamber of commerce of the United States has given consideration to the consequences which would result if the president follows the direction of the congress with respect to the abrogation of treaties with the United States which restrict the right of the United States to impose discriminating customs duties on imports or discriminatory tonnage duties on foreign vessels and of vessels of the United States entering the United States.

"The substance is: 'The president is hereby authorized and directed within ninety days after this act becomes law, to give notice to the several governments, respectively, parties to such treaties or conventions, that such treaties or conventions, which restrict the right of the United States to impose discriminating customs duties on imports or discriminatory tonnage duties on foreign vessels and of vessels of the United States entering the United States, will terminate on the expiration of such periods as may be required for the giving of such notice by the president of such treaties or conventions.'

"This part of the bill has not been much discussed. A treaty, as you know, is a contract between nations. The treaties here affected are the commercial treaties on which our rights to do business with the nations of the world depend. Manifestly, we cannot terminate these treaties without the consent of the country affected. Since they are reciprocal, all we have a right to do, is to terminate the treaties according to their terms.

"The countries affected will heartily consent to give up the treaties giving us a right to discriminate against their commerce and at the same time permit us to enjoy the rights which the treaties secure to us. A formal notice will probably result in the entire abrogation of the treaty.

"Passing for the moment any question of international good faith, we must confront the practical difficulty that we have no right to trade with other countries since our rights in this behalf rests on the treaties affected and of course it may follow that the business of the country will find itself greatly embarrassed.

"The ninety day period provided in section thirty-four expires Friday. Government officials have not thus far given any intimation as to what steps were contemplated toward carrying out section thirty-four.

## MINERS MAKE DEMAND ON OPERATORS

KANSAS CITY, Mo., Aug. 30.—A demand for a wage increase of \$1.50 a day to day laborers in coal mines, 10 cents a ton for machine mined coal and 15-25 cents a ton for coal mined with pick and shovel was presented today to coal operators of the southwest today by representatives of the United Mine Workers of America from Kansas, Missouri, Oklahoma and Arkansas.

The operators went into executive session to discuss the new wage demand, which the miners ask be made retroactive to August 15, according to Mr. Johnson. Another joint conference of operators and miners will be held tomorrow.

## TWO OFFICERS SHOT

St. Louis, Aug. 30.—Eugene S. Conrey and Benjamin Cornett, night sheriff and city marshal, respectively, of Clayton, 10 miles west of here, were shot and killed at Clayton early today by highwaymen who attempted to rob them.

## Terence MacSweeney At Point of Death

LONDON, Aug. 30.—Terence MacSweeney, lord mayor of Cork was still alive at midnight. Although conscious at that hour, he was unable to speak and was believed to be at the point of death.

No word had been received from Lucerne, Switzerland, tonight, indicating that there had been any change in the policy of Premier Lloyd George with regard to Mr. MacSweeney.

Father Dominic spent more than an hour in the prison tonight. When he left at 9 o'clock he reported that Mr. MacSweeney

## COX DENIES HAYS' TESTIMONY AS TO CAMPAIGN FUNDS

Says That Wets Have Not Contributed to Democratic Fund

## NEITHER HAVE THE DRYS CONTRIBUTED

COLUMBUS, Ohio, Aug. 30.—Answering testimony of Will Hays, chairman of the Republican national committee before the senate sub-committee investigating campaign expenditures in Chicago today, Governor Cox, the Democratic presidential nominee declared that the "wets" have not contributed a dollar to "my campaign and they will not."

The governor added that neither had the "drys" contributed. Governor Cox's statement was made after reading newspaper accounts of the hearing in Chicago before which Chairman Hays read a letter purporting to be from George T. Carroll, president of the New Jersey Federation of Liquor Interests, asking for contributions to help elect Cox.

Have Not Been Active. "It is very well understood in this state in particular," Governor Cox said, "that the wets have not been active in politics for some time. If Mr. Hays will take the time to investigate the official reports in Ohio he will find the wets have never contributed a cent to any of my campaigns."

The governor declared any statement to the effect that the "wets" are contributing to his campaign to be "absurd on its face," adding that he only made reply because "silence might be misconstrued."

The governor returned here this afternoon from his eastern tour. He will speak at the Ohio State Fair tomorrow afternoon on agriculture and said he might also discuss the league of nations. He stated this evening that he is preparing a statement on "the last plan" meaning the plan for a world court of justice outlined by Senator Harding in a recent speech.

## WEEKLY BULLETIN SHOWS ILLINOIS CROP IMPROVEMENT

Corn Especially in Greatly Benefitted by Recent Rains

## LOTS OF PEACHES AND WATERMELONS

SPRINGFIELD, Ill., Aug. 30.—The corn crop in Illinois is showing improvement, according to the weekly crop bulletin of the bureau of crop estimates issued today. The crop benefited in most sections from the showers of the preceding week, but is still very uneven both in growth and condition and yields will inevitably vary greatly.

Condition of the soil varies greatly, many fields being baked and hard.

Threshing of winter wheat and rye is practically completed except for wheat in stacks, which is more than at this time last year.

Threshing Well Along. Threshing of spring wheat and oats is well along. Neither the quality or the average yield of spring wheat runs high and there is much shrivelled grain. Yields of oats are far to excellent.

Meadows and pastures show much improvement, the rain is still needed in a number of the counties.

Excellent crops of locally grown peaches and watermelons are being marketed and a large crop of fall and winter apples seems assured. Where not irreparably damaged by the drought, home and truck gardens show improvement.

Health of all livestock continues to be good as a rule.

## HOLD-UP MAN SHOT DRY GOODS MERCHANT

Chicago, Aug. 30.—H. B. Rhodes, Chicago dry goods merchant was shot and killed by an unidentified hold-up man today while he was driving from Evanston to his office. Rhodes refused to stop his car at the order of the bandit.

General Barrett's order followed a day of rumors concerning a threatened clash, as a result of the lynching. Chandler was arrested Saturday following a raid upon an alleged moonshine still near Arcadia, Oklahoma. In which Stanton Weiss, a federal prohibition officer, Homer Adrean, a deputy sheriff, and Charles Chandler, father of Claude Chandler were killed.

"My order was in the way of precaution as the lynching has created a condition of especial delicacy which may produce a need for troops very suddenly."

## PRESIDENT OF PANAMA ARRIVES IN NEW YORK

New York, Aug. 30.—Dr. Belisario Porras, newly elected president of Panama arrived in New York today on the steamer Colon from Arica and Havana.

## CHAIRMAN HAYS GIVES FIGURES TO COMMITTEE

Says Expect to Raise a Little Over Three Million

## DEMOCRATS GET LOTS OF FREE PRINTING

CHICAGO, Aug. 30.—Will H. Hays, Republican national chairman, today appeared before the senate committee investigating campaign expenditures and swore that the national committee's budget for the presidential campaign only called for the expenditure of \$3,079,037.20.

Both Mr. Hays and Homer S. Cummings, until July 20, the Democratic national chairman, were examined at length, but neither could throw any light on the \$15,000,000 fund which Governor Cox, Democratic presidential candidate, charged the Republican party was seeking in "an attempt to corrupt the American electorate and buy the presidency."

The committee also heard Representative M. D. Flood of Virginia, chairman of the Democratic congressional campaign committee, and Representative Joseph L. Rhinock of Kentucky, treasurer of the committee.

Mr. Cummings testified that, allowing for the increased cost of all the necessities of a national campaign, a national committee should be able to stage a "fair, decent and successful campaign with reasonable publicity for \$3,000,000."

Hays Gives Figures. Mr. Hays said the Republican national committee was seeking to raise in addition to the \$3,079,037 budget approximately \$1,000,000 to be donated to the various state committees for their local campaigns, making a total of slightly more than \$4,000,000 in the Republican chest for all purposes.

Neither chairman knew of any large individual contributions and Mr. Hays was rather positive that the Republican plan to limit individual gifts to \$1,000 was being carried out successfully. He knew of thirty-eight exceptions to the rule, the largest being for \$9,000, two for \$5,000 each and the other thirty-five for lesser amounts.

A suggestion that a constitutional amendment might be necessary to give congress oversight of presidential campaigns brought from Mr. Hays a proposal that the parties might unite in an effort to obtain such a change in the basic law.

Representative Flood estimated that \$220,000 would be required by his Democratic congressional committee to conduct its efforts properly but presented figures to show that he had received only \$8,700 in subscriptions. He turned the money over to the Democratic national committee he said, and expected that committee to finance his congressional campaigns.

## LOTS OF FREE PRINTING

Questioning of Representative Flood brought out that he had had printed by the public printer at Washington 1,300,000 copies of speeches by Democratic congressmen. He had pledged his committee to pay \$5,098.16 for the printing, he said. The speeches were being sent out under congressional frank, thereby eliminating postage bills.

His committee, he said, would need \$20,000 for its administration expenses. It pays no rent, it uses the house office building at Washington for headquarters he said.

Fred W. Upham, Republican national treasurer, will be the first witness tomorrow. Senator Kenyon announced when the committee adjourned. He will be followed by Wilbur M. March, Democratic treasurer.

## OKLAHOMA GUARD TROOPS WAITING CALL

Hold in Readiness for Possible Race Trouble—Grew Out of Lynching of Negro.

Oklahoma City, Aug. 30.—All national guard units in Oklahoma City were ordered held in readiness for duty in connection with the lynching of Claude Chandler, a negro, here last night.

Adjutant General C. F. Barrett, General Barrett's order followed a day of rumors concerning a threatened clash, as a result of the lynching. Chandler was arrested Saturday following a raid upon an alleged moonshine still near Arcadia, Oklahoma. In which Stanton Weiss, a federal prohibition officer, Homer Adrean, a deputy sheriff, and Charles Chandler, father of Claude Chandler were killed.

## POLICE COMMISSIONER SHOT AND KILLED

Florence, Italy, Aug. 30.—During a meeting today in favor of immediate recognition of the soviet government a police commissioner was shot and killed. Police returned the fire killing two persons and wounding seven others. A 24 hour protest strike has been ordered.

## PROMINENT PHYSICIAN DIES AT DECATUR

Decatur, Ill., Aug. 30.—Dr. E. J. Brown, one of the most prominent physicians in the state and who served six successive terms as treasurer of the Illinois Medical society, died here today.

## Colonel Theodore Roosevelt Appeals to American People

BANGOR, Me., Aug. 30.—An appeal to Americans to meet present conditions "with clear eyes, with honesty and a steady hand" was made by Lieutenant Colonel Theodore Roosevelt in a speech here today.

"In Mr. Cox the Democrats have chosen a man whose shifty hypocrisy thoroughly entitles him to be the leader of the party whose administration has darkened the pages of our history during the last eight years," he said. "He inveighs against Republican party. He says that its platform does not acclaim the fine part played by America in the war."

"Does he not know that it is not considered customary or in good taste to praise your own achievements and it was the Republican party that fought the war. There was not a male representative of the close official family of the national Democratic administration, who, to the best of my knowledge, was, during the war, within the range of a gun fired by the enemy. We can at least give them this credit. They did not use their influence to be sent where the danger was sorest."

"Under Harding and Coolidge and the Republican party we are moving forward to victory under a banner reading 'America First.'"

## RAILROADS WILL REVERT BACK TO PRIVATE CONTROL

Have Cost Government \$100,000,000 Monthly

FACE GIGANTIC INCREASED EXPENSE

LWASHINGTON, Aug. 30.—(By the Associated Press.)—Railroads of the country will begin operation on their own resources tomorrow night after having cost the government approximately \$100,000,000 monthly for the six months in which their earnings were guaranteed by the federal act. The carriers will be allowed further aid from the government only thru loans from revolving funds which the act created.

## FRONT DESIGNATED BY ALLIES OF NO VALUE TO POLES

WARSAW, Aug. 30.—(By The Associated Press.)—President Pilsudski in a statement to the Polish Press declares that the front designated by the allies on December 8, as Poland's eastern frontier, is from a strategic point of view, worth nothing to the republic.

At several points in the region of Brest-Litovsk, he says, "we have already crossed the allied line; in the north we are approaching it. To halt on this line, dig trenches and create a state of defense means that we confirm with this act that the front in the east answer our aspirations."

The Polish president goes on to say there are two solutions of the Russian problem, either to march forward and crush the Reds so completely that they will be forced to speak with the Poles in another tone to remain on the illusory frontier and conclude peace as promptly as possible.

Must Make Prompt Decision. "The Poles must make a decision prompt and energetic, he continues. "We must not delude ourselves, even if we sign, since we should always remain an object of Russian aggression."

President Pilsudski points out that an abnormal situation has arisen and that the entire front of the Poles by force of events has been turned toward the Prussian frontier.

"Its rear and its flank are in the direction of Russia," he adds, "and we must bring it back to a natural state. I am convinced that the Russians have not renounced their intention of attacking us further."

"Our friends desire that the Poles shall remain stationary on the eastern front, maintaining a purely defensive attitude. My opinion is that this is impossible. How can Poland with its small army, badly equipped, remain on a fixed front of hundreds of miles? Such lines should have trenches and protecting rows of barbed wire and to carry sufficient weight to the lines would occupy the entire railroad system for months."

## ASK BOLSHIEV ARMY TO RALLY

WARSAW, Aug. 30.—Bolshevik officers taken prisoner by the Poles say that the Polish army will not meet serious resistance until it reaches the line running thru the railroad points of Vilna, Lida, Baranovich and Luninets, it was learned today.

Irrepressible messages have been sent broadcast to scattered units of the Bolshevik army remaining in Polish territory asking them to try and rally at Minsk.

An intercepted wireless message revealed the complaint of Bolshevik division commanders that they had received unarmed soldiers as reinforcements. The message indicated that the remnants of the Bolshevik troops operating in Poland will be divided into two armies. Northern headquarters would be established at Minsk and southern headquarters at Rovno. Leon Trotsky the soviet minister of war is expected to take personal supreme command of both armies.

## WIL SET DATE FOR FIRST CONVENTION

Chicago, Aug. 30.—The date of the first convention of the Illinois League of Women Voters will be set at a meeting of the board of directors of the Illinois Equal Suffrage association held here tomorrow. Mrs. Grace Wilbur Trout announced today.

Peking, Aug. 28.—Dr. Paul S. Reischner, former United States minister to China today announced his resignation as legal adviser to the Chinese government.

## LOWER LEVEL OF PRICES PREDICTED REMAINDER OF YEAR

## Committee Gives Figures on Which to Base Claims

## GIVES REASONS FOR PREDICTIONS

WASHINGTON, Aug. 30.—Business and industrial conditions during the remainder of the calendar year will be marked by a "definite trend to a somewhat lower level of prices," according to a semi-annual report upon crops and business given out today by the United States chamber of commerce. The committee which prepared the reports added that the general financial opinion in the country was that the readjustment would be accomplished without "financial disorder or any sudden economic calamity."

Tight money, unrest of labor, the loosened bonds in some phases of social life, the Russian-Poland war and the high cost of necessities are enumerated as disturbing business factors but in the opinion of the committee there is no need for the country to become panicky over any of these matters.

Lower Level of Prices. Amid all the cross-currents and eddies of the industrial situation a definite trend seems to be slowly developing toward a gradually increasing gain of supply upon demand and a somewhat lower level of prices the committee reported. Here and there mills have shut down. Here and there they are running on reduced time. It is a scattered local matter rather than a general proposition.

The automobile industry seems to be headed toward somewhat lessened output. Also the jewelry business in New England is slowing down. Paper mills are busy and full of orders. Equally is this true of the metal lines.

"Whether mining is busy and prosperous or the reverse depends upon the nature of the metal. Gold mining still suffers from high cost of production and the stationary price of gold. Silver mining feels the effect of the decline in the price of silver. The price of zinc is low and the demand not equal to the possibilities of supplies. Lead is higher because of increased demand. Copper is dull because of a supply not yet disposed of. Iron mining is good. Phosphate mines in the south are doing well after many lean years. Contraction in financial credits has put wildcatting in the oil regions out of business which makes supplies for drilling oil wells are no longer called for.

Reasons Are Given. "Construction and building have slowed down, because of high prices and scarcity of both labor and building materials. "Coal mining as usual has its flock of troubles—strikes and lack of cars being the principal ones. "The promise now and it is almost filled, is for three billion bushels of corn, eight hundred million bushels of wheat, both winter and spring and for a cotton yield of about twelve and a half million bales. Cotton, however, is not a safe reckoning as yet. There will be more oats than last year, and more tobacco, which is good average, good potatoes and more rice, about the largest crop on record. Also there will be more sugar, both cane and beet and especially a hay crop of such proportions as should have a marked effect in reducing the cost of livestock, and of dairy and poultry products.

"From every state and every section comes the complaint of the lack of cars as the greatest of all handicaps to the transaction of business and one of the moving causes of the continuance of high prices."

## BRITISH SHIPPING IS STILL TIED UP

Longshoremen's Strike Still Affects Shipping—Want Mannix and MacSweeney Released.

New York, Aug. 30.—British shipping continued to be tied up to some extent today as a result of failure to report to work of many longshoremen who suddenly walked out in sympathy with the Irish freedom movement last Friday.

Union leaders asserted efforts to induce the men to return to work had failed and estimated that 4,000 Irish sympathizers were still out. The men declared they would not load or discharge a ship flying the Union Jack until England allows Archbishop Mannix on Irish soil and frees the lord mayor of Cork from Brixton prison.

An effort was made by union officials to have the men assemble at a meeting where they were to be asked to return to their jobs as spurned by the Irish sympathizers who sent word to headquarters that they would remain away from the piers until England "met their demands."

## GIFFORD PINCHOT CONFERRED WITH SENATOR HARDING

Former Progressive Pleaded With Harding's Views

## LOWDEN TO BE PRESENT TODAY

MARION, O., Aug. 30.—Senator Harding's reclamation policy to be enunciated tomorrow in an address here to a group of Republican governors, was discussed in detail by the nominee today with Gifford Pinchot.

Afterward, Mr. Pinchot, former chief of the federal forestry service and a leader of the Progressive party in the 1912 campaign, issued a statement saying he was much pleased with the senator's views and was ready to let bygones be bygones and do all he could for Republican success. Nine governors have promised to be in the delegation tomorrow in addition to a number of former governors and gubernatorial nominees.

## LOWDEN Will Be Present.

Frank O. Lowden, governor of Illinois and one of the leading candidates for the presidential nomination at Chicago is among those expected to be present.

"Senator Harding and I have been on opposite sides of many questions," Mr. Pinchot said. "In order to get together there was much for each of us to overlook one of us likes as little as the other, some of the things that each of us has said. But these things are past. They have nothing to do with the great task of the moment, which is to put out of existence the men who have debauched and despoiled the people and the government of the United States."

"What Senator Harding has said about forestry and the shortage of lumber and paper is admirable. What he has told of his views on conservation is equally admirable. I am greatly pleased with both."

## THOUSANDS WALK AS STRIKE TIES UP NEW YORK TRAINS

## Municipal Bus Lines Go Much to Relieve Congested Traffic

NEW YORK, Aug. 30.—With strike-bound Brooklyn Rapid Transit System able to operate only 61 two-car elevated and subway trains and no surface cars at all, great throngs of Brooklynites went home tonight on motor trucks, furniture vans, buses and vehicles of every description. Other thousands walked across the East River bridges which were packed with hurrying humanity. Emergency municipal bus lines did much to relieve the congestion nearly a thousand buses carrying passengers over established routes for five cents, while operators of hundreds of other vehicles sought passengers from Manhattan to Brooklyn and back at widely varying prices.

No attempt will be made to run surface cars in Brooklyn tomorrow, B. R. T. officials said tonight but they hoped to have them moving soon with new men.

The public service commission held a hearing late today in an effort to bring about a settlement of the strike. The commission did not complete its inquiry but announced that the chief agreement between the men and the company is over the question of arbitration.

Federal Judge Mayer, legal guardian of the B. R. T. said he would not submit to arbitration of the strikers' demands unless he could retain the right to scale down any wage awards he saw fit.

## PRICE OF SUGAR TO JOBBERS CUT

San Francisco, Aug. 30.—A reduction of three cents to the jobber for their forthcoming allotments of sugar was declared by the American-Hawaiian and Western Sugar Refining Companies here today. This should make sugar sell for 20 cents retail in San Francisco.

## BANDITS HOLD UP GAMBLING HOUSE

Burlington, Iowa, Aug. 30.—Three strangers with drawn guns held up the gambling house operated by Oscar Pothoff, of Burlington, just across the river in Henderson county, Illinois, Sunday evening, commanding Pothoff and four others who were shooting craps to throw up their hands. The robbers secured \$1,800 from the proprietor and two gold watches from the players.

## Canton, China Placed Under Martial Law

PEKING, Aug. 28.—Martial law has been declared in Canton in a move by the southwestern military government for the overthrow of the Peking government, according to the Asiatic News Agency.

Dr. Sun Yat-Sen, first president of China; Dr. Wu Ting-fang, and Tung Shao-Yi, leaders of the southwestern military government in Canton today issued a proclamation lauding General Tang Chi-Yao as the George Washington of China, in whom they look for "overthrow of the illegal government at Peking, according to this agency."

General Tang, who holds military control over Yunnan, Kweichow Szechuen provinces in opposition to the Peking government is one of China's youngest prominent military men, being under 40 years of age.

Military headquarters have been established at Chungking in the eastern part of Szechuen province as headquarters of new government. It is reported here that General Wu-Pei has been established at Chungking. Peking government has been established at Chungking.

"In Mr. Cox the Democrats have chosen a man whose shifty hypocrisy thoroughly entitles him to be the leader of the party whose administration has darkened the pages of our history during the last eight years," he said. "He inveighs against Republican party. He says that its platform does not acclain the fine part played by America in the war.

"Does he not know that it is not considered customary or in good taste to praise your own achievements and it was the Republican party that fought the war. There was not a male representative of the close official family of the national Democratic administration, who, to the best of my knowledge, was, during the war, within the range of a gun fired by the enemy. We can at least give them this credit. They did not use their influence to be sent where the danger was sorest.

"Under Harding and Coolidge and the Republican party we are moving forward to victory under a banner reading 'America First.'"

## RAILROADS WILL REVERT BACK TO PRIVATE CONTROL

### Have Cost Government \$100,000,000 Monthly

### FACE GIGANTIC INCREASED EXPENSE

WASHINGTON, Aug. 30.—(By the Associated Press.)—Railroads of the country will begin operation on their own resources tomorrow night after having cost the government approximately \$100,000,000 monthly for the six months in which their earnings were guaranteed by the transportation act. The carriers will be allowed further aid from the government only thru loans from revolving funds which the act created.

Earnings of the roads will fall about \$600,000,000 below their standard return for the period since March 1st, according to estimates today by the bureau of railway economics. Fewer than half a score of lines have produced revenue sufficient to equal actual operating expenses which does not include the fixed charges of interest taxes and dividends.

In the first four months of the guarantee period, March, April, May and June, railroad revenues topped actual expenditures for operation only once. The March revenues showed a net return of \$13,700,000 while there were deficits of \$29,700,000 in April, \$11,900,000 in May, \$7,500,000 in June.

Face Gigantic Expense

The face award it is estimated, will add more than \$50,000,000 to operating expenses for each month while about \$200,000 will be in back pay to employees will come out of the earnings of July and August unless the corporations have sufficient funds on hand to draw on a reserve.

For the reason that the deficit has been so great, officials are preparing to give close study to the result of the recent rate increases. The interstate commerce commission estimated the increased rates would yield approximately \$1,000,000,000 annually. But this sum will not be sufficient it is predicted unless traffic comes in unprecedented volume and there is a decreased expense of operations.

## KING ALBERT GAVE MEDALS TO ATHLETES

### ANTWERP, Aug. 30.—By the Associated Press.

King Albert presented the medals and other awards won at the seventh Olympiad to the winners in the athletic, swimming and rowing events, at the stadium this afternoon. It would have been necessary to use a large basket for the Americans share alone of the statutes and medals. For example out of about one hundred awards for athletics, the share of the United States' representatives was nearly forty.

The few score Americans who were present, made up in noisy cheers what they lacked in numbers. They gave King Albert a cheer such as royalty probably never received before, it being an American yell ending with "Albert, Albert, Albert."

Brand Whitlock, the American ambassador, was in the stand with the king who personally presented the medals to winners of first places. The crown prince, Leopold gave out those awarded to seconds, and the young Prince Charles to the third.

POLICE COMMISSIONER SHOT AND KILLED

Florence, Italy, Aug. 30.—During a meeting today in favor of immediate recognition of the soviet government a police commissioner was shot and killed. Policemen returned the fire killing two persons and wounding seven others. A 24 hour protest strike has been ordered.

PROMINENT PHYSICIAN DIES AT DECATUR

Decatur, Ill., Aug. 30.—Dr. E. J. Brown, one of the most prominent physicians in the state and who served six successive terms as treasurer of the Illinois Medical society, died here today.

## LOWER LEVEL OF PRICES PREDICTED REMAINDER OF YEAR

### Committee Gives Figures on Which to Base Claims

### GIVES REASONS FOR PREDICTIONS

WASHINGTON, Aug. 30.—Business and industrial conditions during the remainder of the calendar year will be marked by a "definite trend to a somewhat lower level of prices," according to a semi-annual report upon crops and business given out today by the United States chamber of commerce. The committee which prepared the reports added that the general financial opinion in the country was that the readjustment of the industrial situation would be accomplished without "financial disorder or any sudden economic calamity."

Tight money, unrest of labor, the loosened bonds in some phases of social life, the Russian-Poland war and the high cost of necessities are enumerated as disturbing business factors but in the opinion of the committee there is no need for the country to become panicky over any of these matters.

Lower Level of Prices

Amid all the cross-currents and eddies of the industrial situation a definite trend seems to be slowly developing toward a gradually increasing gain of supply upon demand and a somewhat lower level of prices the committee reported. Here and there mills have shut down. Here and there they are running on reduced time. It is a scattered local matter rather than a general proposition.

The automobile industry seems to be headed toward somewhat lessened output. Also the jewelry business in New England is slowing down. Paper mills are busy and full of orders. Equally is this true of the metal lines.

"Whether mining is busy and prosperous or the reverse depends upon the nature of the metal. Gold mining still suffers from high cost of production and the stationary price of gold. Silver mining feels the effect of the decline in the price of silver. The price of zinc is low and the demand not equal to the possibilities of supplies. Lead is higher because of increased demand. Copper is dull because of a supply not yet disposed of. Iron mining is good. Phosphate mines in the south are doing well after many lean years. Contraction in financial credits has put wildcatering in the oil regions out of business which makes business there dull because supplies for drilling oil wells are no longer called for.

Reasons Are Given

"Contraction and building have slowed down because of high prices and scarcity of both labor and building materials.

"Coal mining as usual has its flock of troubles—strikes and lack of cars being the principal ones.

"The promise now and it is almost filled, is for three billion bushels of corn, eight hundred million bushels of wheat, both winter and spring and for a cotton yield of about twelve and a half million bales. Cotton, however, is not a safe reckoning as yet. There will be more oats than last year, and more tobacco, which is good average, good potatoes and more rice, about the largest crop on record. Also there will be more sugar, both cane and beet and especially a hay crop of such proportions as should have a marked effect in reducing the cost of livestock, and of dairy and poultry products.

"From every state and every section comes the complaint of the lack of cars as the greatest of all handicaps to the transaction of business and one of the moving causes of the continuance of high prices."

## BRITISH SHIPPING IS STILL TIED UP

### Longshoremen's Strike Still Affects Shipping—Want Mannix and MacSwiney Released

New York, Aug. 30.—British shipping continued to be tied up to some extent today as a result of failure to report to work of many longshoremen who suddenly walked out in sympathy with the Irish freedom movement last Friday.

Union leaders asserted efforts to induce the men to return to work had failed and estimated that 4,000 Irish sympathizers were still out. The men declared they would not load or discharge a ship flying the Union Jack until England allows Archbishop Mannix on Irish soil and frees the lord mayor of Cork from Brixton prison.

An effort was made by union officials to have the men assemble at a meeting where they were to be asked to return to their jobs as the Irish sympathizers who sent word to headquarters that they would remain away from the piers until England "met their demands."

## GIFFORD PINCHOT CONFERRED WITH SENATOR HARDING

### Former Progressive Pleased With Harding's Views

### LOWDEN TO BE PRESENT TODAY

MARION, O., Aug. 30.—Senator Harding's reclamation policy to be enunciated tomorrow in an address here to a group of Republican governors, was discussed in detail by the nominee today with Gifford Pinchot.

Afterward, Mr. Pinchot, former chief of the federal forestry service and a leader of the Progressive party in the 1912 campaign, issued a statement saying he was much pleased with the senator's views and was ready to let bygones be bygones and do all he could for Republican success. Nine governors have promised to be in the delegation tomorrow in addition to a number of former governors and gubernatorial nominees.

Lowden Will Be Present

Frank O. Lowden, governor of Illinois and one of the leading candidates for the presidential nomination at Chicago is among those expected to be present.

"Senator Harding and I have been on opposite sides of many questions," Mr. Pinchot said. "In order to get together there was much for each of us to overlook. One of us likes as little as the other, some of the things that each of us has said. But these things are past. They have nothing to do with the great task of the moment, which is to put out of existence the men who have debauched and despoiled the people and the government of the United States."

"What Senator Harding has said about forestry and the shortage of lumber and paper is admirable. What he has told me of his views on conservation is equally admirable. I am greatly pleased with both."

## THOUSANDS WALK AS STRIKE TIES UP NEW YORK TRAINS

### Municipal Bus Lines do Much to Relieve Congested Traffic

### FEDERAL JUDGE SAYS NO ARBITRATION

NEW YORK, Aug. 30.—With strike-bound Brooklyn Rapid Transit System able to operate only 51 two-car elevated and subway trains and no surface cars at all, great throngs of Brooklynites went home tonight on motor trucks, furniture vans, buses and vehicles of every description. Other thousands walked across the East River bridges which were packed with hurrying humanity. Emergency municipal bus lines did much to relieve the congestion nearly a thousand buses carrying passengers over established routes for five cents, while operators of hundreds of other vehicles sought passengers from Manhattan to Brooklyn and back at widely varying prices.

No attempt will be made to run surface cars in Brooklyn tomorrow, B. R. T. officials said tonight but they hoped to have them moving soon with new men.

The public service commission held a hearing late today in an effort to bring about a settlement of the strike. The commission did not complete its inquiry but announced that the chief agent of the company is over the question of arbitration.

Federal Judge Mayer, legal custodian of the B. R. T., said he would not submit to arbitration of the strikers' demands unless he could retain the right to scale down any wage awards he saw fit.

PRICE OF SUGAR TO JOBBERS CUT

San Francisco, Aug. 30.—A reduction of three cents to the jobber for their forthcoming allotments of sugar was declared by the American-Hawaiian and Western Sugar Refining Companies here today. This should make sugar sell for 20 cents retail in San Francisco.

## COAL WAGE AWARD IS APPROVED BY THE PRESIDENT

### Warns Miners Must Stand by Resolution Adopted

### TELLS THEM WILL CALL THEIR BLUFF

WASHINGTON, Aug. 30.—President Wilson today approved the majority report of the anthracite coal commission, awarding the coal miners wage increases aggregating \$85,000,000 and notified the miners that he expected them to accept the award and carry it into effect in good faith.

Replying to threats from the miners that they would stop work September 1, unless the minority report of the commission recommending a higher award than provided in the majority, were accepted, the president stated definitely that the majority award would not be set aside.

The majority report of the commission signed by W. O. Thompson, president of Ohio State university, representative of the public and chairman, and by W. I. Connell of Scranton, Pa., representing the operators, granted wage increases of 20 to 17 per cent above the present wage scale. The 20 per cent wage increase was awarded contract miners and the advance of 17 per cent was recommended for company miners, monthly men, miners' laborers and contract laborers.

Neil J. Ferry of McDade, Pa., representing the miners whose minority report the workers in district meetings have endorsed, recommended a minimum wage of six dollars a day for adult day laborers and an increase of 31 per cent for contract workers.

Miners Agreed to Accept

In refusing the request of the miners for acceptance of minority report as made in a telegram sent thru their local representatives, the president called attention to a resolution adopted by the miners in convention agreeing to accept the findings of such a commission as he appointed.

"By all the laws of honor upon which civilization rests," said the president in his telegram to the miners, "that pledge should be fulfilled. Any intimation that the anthracite mine workers will refuse to work under the award because it does not grant them all that they expected is a reflection upon the sincerity of the men who constitute the back bone of the community in which they live."

The president further told the miners that if their communication was intended as a threat they could rest assured that the challenge would be accepted and that the people of the country would find some substitute fuel to take them over "until the real sentiment of the anthracite mine workers can find expression and they are ready to abide by the obligations they entered into."

## BANDITS HOLD UP GAMBLING HOUSE

### Burlington, Iowa, Aug. 30.—Three strangers with drawn guns held up the gambling house operated by Oscar Pothoff of Burlington, just across the river in Henderson county, Illinois, Sunday evening, commanding Pothoff and four others who were shooting craps to throw up their hands, the robbers secured \$1,800 from the proprietor and two gold watches from the players.

## Canton, China Placed Under Martial Law

PEKING, Aug. 28.—Martial law has been declared in Canton in a move by the southwestern military government for the overthrow of the Peking government, according to the Asiatic News Agency.

Dr. Sun Yat-sen, first president of China; Dr. Wu Ting-fang, and Tang Shao-yi, leaders of the southwestern military government in Canton today issued a proclamation lauding General Tang Chi-yao as the George Washington of China, in whom they look for "overthrow of the illegal government at Peking, according to this agency."

General Tang, who holds military control over Yunnan, Kwichow Szechuen provinces in opposition to the Peking government, is one of China's youngest prominent military men, being under 40 years of age.

Military headquarters have been established at Chungking in the eastern part of Szechuen province as headquarters of a new government. It is reported here that General Yu-Pei-fu will lead an army of Peking government troops to the chuen.

## Terence MacSweeney At Point of Death

LONDON, Aug. 30.—Terence MacSweeney, lord mayor of Cork was still alive at midnight. Although conscious at that hour, he was unable to speak and was believed to be at the point of death.

No word had been received from Lucerne, Switzerland, tonight, indicating that there had been any change in the policy of Premier Lloyd George with regard to Mr. MacSweeney.

Father Dominic spent more than an hour in the prison tonight. When he left at 9 o'clock he reported that Mr. MacSweeney was weaker and expressed the belief that he might die at any moment. The priest said MacSweeney was showing an indomitable will.

Mr. MacSweeney's sister spent two hours in the prison this afternoon. She said she found her brother so weak that he was unable to give her several messages he desired her to convey for him.

Four hunger strikers in the Cork jail today completed their twentieth day of fasting and were reported tonight to be at the point of death.

Contingents of the United States army are being maintained in ten widely separated sections of the world. Out of a total strength of 203,870, units in continental United States comprise 153,000; in the Philippines, roughly, 20,000; Germany, 15,600; Hawaii, 4,600; Panama, 4,350; Porto Rico, 1,500; China, 1,500; Alaska, 890; France, 138, and England, 13.

There is always more or less excitement about running for office, but it is not always profitable. An Oklahoma man who was seeking to be county attorney recently found this out. He was so busy canvassing for votes that he forgot to renew a number of oil leases. On the day following the expiration of one of these leases a 400 barrel well was brought in an adjoining

acreage. Now it is impossible for him to get a renewal and this candidate for a \$3000 office figures that he has lost \$100,000 or so.

There is more building on the farms than usual this summer, reports indicate. This doesn't mean that building has taken an impetus because materials and labor are cheap. It does mean that many farmers who have been unable to put their grain in elevators have erected granaries on the farms instead. In some instances the farmers have disliked very much to go to this expense but with passing years they will find the money well invested, as with granaries at hand they are in a much more independent position when the threshing season comes than are those farmers who must depend upon elevators.

Such increases have come in the cost of operating street cars that it may be necessary to abandon the service in some cities. That's the way they are doing in Germany. There owing to the enormous increase in the cost of operation, street car service in many of the smaller cities has been discontinued. Jena, Wuerzburg, Freiburg and Heilbronn are among the cities trying now to get along without trams. Berlin and other large cities, where fares have been enormously increased, are retaining only those lines which are absolutely necessary for the accommodation of persons having to travel long distances. Wagons and carts are

being brought out to give pedestrians "a lift."

St. Louis Times: "Whatever may be individual judgment regarding the course a presidential candidate should take in his campaign, there will be general commendation of Mr. Harding's good sense in refusing to 'barnstorm' the country. The Republican nominee recognizes the responsibility his candidacy places upon him to make known to the nation his own and his party's attitude toward every issue relating to government. He knows, too, how far from meeting this responsibility is the making of speeches in machine-gun fashion during a headlong chase across the land. 'Barnstorming' is the proper word to apply to trained oratory. It meets no problem, discusses no situation, offers no solution, impresses nobody who sincerely seeks enlightenment. It creates a furor, but that is not fixing the noisemaker's size as suitable to the presidency of this great republic."

"The Federal Reserve Act," boast Governor Cox, "is admitted to be the most constructive monetary legislation in history." Possibly so, particularly when we recall that most of the act was lifted bodily from the Alldrich-Vreeland Republican Currency Law of 1908, and the entire legislation received its inspiration from material gathered by the National Monetary Commission created by a Republican congress.

In the hands of incompetent Democratic administrators, however, the law has been a source of worry to many financial institutions. Senator Owen of Oklahoma, who was chairman of the committee which framed the Federal Reserve Act, has charged that the actions of the Reserve Board are directly responsible for the existing high interest rates and consequent depreciation of over \$2,000,000,000,000 in the sales value of Liberty Bonds. As a Republican measure administered by Democrats, the Reserve Act has shown many defects. When Republicans assume charge of the execution of its terms it is probable that it will prove itself a valuable piece of legislation.

MISS BARRETTE TO LEAVE LIBRARY

Will Assume Position in Mason City, Iowa, in October.

Announcement was made yesterday that the resignation of Miss Lydia M. Barrette as city librarian will be presented to the directors today. Miss Barrette wishes to give up her position in order to become librarian at Mason City, Iowa, a position to which she was recently appointed. As the library at Mason City has a much larger income than the library here the salary in the Iowa city is larger than can be paid in Jacksonville.

Miss Barrette came to Jacksonville from the Davenport, Iowa, library. The past winter she was given leave of absence for a number of months and these were spent in special work at the library school of the Western Reserve university at Cleveland, Ohio.

During Miss Barrettes term of office the library has increased largely in usefulness and the circulation as booked now is larger than ever before. In many ways Miss Barrette has shown devotion to her work and she is well qualified for the larger responsibilities that will be hers in Mason City.

Contingents of the United States army are being maintained in ten widely separated sections of the world. Out of a total strength of 203,870, units in continental United States comprise 153,000; in the Philippines, roughly, 20,000; Germany, 15,690; Hawaii, 4,600; Panama, 4,250; Porto Rico, 1,500; China, 1,500; Alaska, 890; France, 138, and England, 13.

There is always more or less excitement about running for office, but it is not always profitable. An Oklahoma man who was seeking to be county attorney recently found this out. He was so busy canvassing for votes that he forgot to renew a number of oil leases. On the day following the expiration of one of these leases a 400 barrel well was brought in on an adjoining

acreage. Now it is impossible for him to get a renewal and this candidate for a \$3000 office figure that he has lost \$100,000 or so.

There is more building on the farms than usual this summer, reports indicate. This doesn't mean that building has taken an impetus because materials and labor are cheap. It does mean that many farmers who have been unable to put their grain in elevators have erected granaries on the farms instead. In some instances the farmers have disliked very much to go to this expense but with passing years they will find the money well invested, as with granaries at hand they are in a much more independent position when the threshing season comes than are those farmers who must depend upon elevators.

Such increases have come in the cost of operating street cars that it may be necessary to abandon the service in some cities. That's the way they are doing in Germany. There owing to the enormous increase in the cost of operation, street car service in many of the smaller cities has been discontinued. Jena, Wuerzburg, Freiburg and Heilbronn are among the cities trying now to get along without trams. Berlin and other large cities, where fares have been enormously increased, are retaining only those lines which are absolutely necessary for the accommodation of persons having to travel long distances. Wagons and carts are

being brought out to give pedestrians "a lift."

St. Louis Times: "Whatever may be individual judgment regarding the course a presidential candidate should take in his campaign, there will be general commendation of Mr. Harding's good sense in refusing to 'barnstorm' the country. The Republican nominee recognizes the responsibility his candidacy places upon him to make known to the nation his own and his party's attitude toward every issue relating to government. He knows, too, how far from meeting this responsibility is the making of speeches in machine-gun fashion during a headlong chase across the land. 'Barnstorming' is the proper word to apply to transient oratory. It meets no problem, discusses no situation, offers no solution, impresses nobody who sincerely seeks enlightenment. It creates a furor, but that is not fixing the noisemaker's size as suitable to the presidency of this great republic."

"The Federal Reserve Act," boast Governor Cox, "is admitted to be the most constructive monetary legislation in history." Possibly so, particularly when we recall that most of the act was lifted bodily from the Aldrich-Vreeland Republican Currency Law of 1908, and the entire legislation received its inspiration from material gathered by the National Monetary Commission created by a Republican congress.

In the hands of incompetent Democratic administrators, however, the law has been a source of worry to many financial institutions. Senator Owen of Oklahoma, who was chairman of the committee which framed the Federal Reserve Act, has charged that the actions of the Reserve Board are directly responsible for the existing high interest rates and consequent depreciation of over \$2,000,000,000,000 in the sales value of Liberty Bonds. As a Republican measure administered by Democrats, the Reserve Act has shown many defects. When Republicans assume charge of the execution of its terms it is probable that it will prove itself a valuable piece of legislation.

## THE AUTO PERIL

Let's rise, O footsore readers, and form a union strong, to punish all the speeders who rush their cars along; with terrors dire they fill us, they make us weak and pale; they try to maim or kill us, and grumble when they maul. The streets are scenes of danger, where speed laws won't stay put, and heaven help the stranger who tries to cross on foot! Some reckless, bonehead driver will promptly climb his frame, and will not care a stiver how many more he'll maim. Oh, every night I wonder, when I retire to bed, that I'm not torn as-

## MISS BARRETTE TO LEAVE LIBRARY

Will Assume Position in Mason City, Iowa, in October.

Announcement was made yesterday that the resignation of Miss Lydia M. Barrette as city librarian will be presented to the directors today. Miss Barrette wishes to give up her position in order to become librarian at Mason City, Iowa, a position to which she was recently appointed. As the library at Mason City has a much larger income than the library here the salary in the Iowa city is larger than can be paid in Jacksonville.

Miss Barrette came to Jacksonville from the Davenport, Iowa, library. The past winter she was given leave of absence for a number of months and these were spent in special work at the library school of the Western Reserve university at Cleveland, Ohio.

During Miss Barrettes term of office the library has increased largely in usefulness and the circulation as booked now is larger than ever before. In many ways Miss Barrette has shown devotion to her work and she is well qualified for the larger responsibilities that will be hers in Mason City.

## BLANKS DECATUR

Win From Visitors by Score of 2 to 0—Game Was Pitchers' Battle Between Wright and Blasek.

Jacksonville defeated the Lead-er team of Decatur at South Side park Sunday afternoon by a score of 2 to 0. The game was a pitchers' battle between Wright and Blasek with Wright having the better of the argument.

Wright allowed two hits, one of them a drive that bounced off his glove. He struck out 12 men and did not walk a man or hit one.

Blasek allowed but three hits. However, he did not receive support from his team mates at critical periods and that accounted for one of Jacksonville's runs. The other came thru a base on balls. Blasek fielded his position in great style.

In spite of the closeness of the score and the good work of the pitchers the game was slow and there was nothing about it to arouse the enthusiasm of the spectators. Quick caught a good game for Decatur while Scott, who worked for the locals also did good work and put a lot of pep into the game.

Wheeler made some great stops of badly thrown balls at first while Ruble made the only real good fielding play of the game when he grabbed Rice's grounder in the third and tossed the runner out at first. Christopher only had one chance during the afternoon and muffed his first fly ball in two years.

**How the Runs Were Made**  
Jacksonville scored one run in the first. Blasek could not locate the plate and walked Denny, the first man up. Wheeler laid the ball down and Denny by good sprinting went to third while Wheeler was being retired. Ruble then squeezed him in.

The other run came in the fifth. After Christopher had struck out, Scott was safe on Askin's error. Riggs doubled to left center and Scott was tagged out at home on B. Kotzelcheck's relay to Blasek to Quick. Riggs took third on the throw in and scored on a wild pitch. That ended the run getting.

The visitors threatened to score in the seventh when Dombrowski doubled and went to third on a wild pitch. He was caught between third base and home and run down, Denny making the out. That was the only time they threatened. The score:

Anyone Can Make a Pint for Trifling Sum and Used in Time May Prevent Annual Attack.

"No matter how severe your yearly attack be.

"No matter how distressing or humiliating—

"The intensity can be reduced to a harmless mildness," says a Kentucky druggist, who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently unquarable cases of Hay and Rose fever reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack, the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Pour three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled. Gargle daily as directed and snuff or spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in three-quarter-ounce vials is dispensed by all the better pharmacies.

Mentholized Arcline is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

## Are Now Passe.

Up-to-date Men Are Using Barbasol for Shaving.

Life is truly becoming simpler. Another "habit" has been found a fallacy. All these years men have thought the shaving brush a necessity. With it we have wasted hours of our valuable time working up the lather on our beards preparatory to the daily shave.

Now, they say, this was lost motion; a waste of time.

The shaving brush is dangerous, carries germs of fatal disease, such as anthrax.

And, the alkali, which must be a part of soap in order to make lather, irritates the face and makes it sore.

Barbasol, the antiseptic beard softener, does away with all these, makes the skin healthy and free from all shaving irritations, smart, and soreness, and gives a better shave.

All druggists sell Barbasol. If your druggist hasn't Barbasol it will be mailed to you on receipt of price, 35 cents, and druggist's name. Made only by the Napco Corporation, Indianapolis, Indiana.

Have You Seen the F. B. Battery Cover? The F. B. Battery Cover is an absolute essential for the protection of the battery. Without it the top of the battery quickly becomes covered with mud and dirt, which becomes acid soaked, not only causing a leakage of the current and soon runs down the battery, but also causes undue corrosion, disintegration of the terminals and the battery box proper which in a short time absolutely ruins the complete battery.

Have You Seen the F. B. Battery Cover? The F. B. Battery Cover is an absolute essential for the protection of the battery. Without it the top of the battery quickly becomes covered with mud and dirt, which becomes acid soaked, not only causing a leakage of the current and soon runs down the battery, but also causes undue corrosion, disintegration of the terminals and the battery box proper which in a short time absolutely ruins the complete battery.

## BRITISH NOTE BADLY GARBLED IN TRANSMISSION

### Reply to U. S. Query About British-French Oil Policy

### INQUIRY WAS MADE SEVERAL WEEKS AGO

WASHINGTON, Aug. 30.—Reply was received by the state department today from Great Britain to the recent note of the American government asking for information as to the reported British-French policy as to oil supplies, notably in the mandate countries of Asia Minor. The note was so badly garbled in transmission that officials were unable to make out the contents. The inquiry of the United States government, addressed to Great Britain several weeks ago was said by state department officials to be directed primarily to development of the principle to be established and recognized by all powers as to the exploitation of raw materials in mandate territories.

An agreement was reported concluded between the French and British governments at the San Remo conference by which the oil rights in Mesopotamia

were divided between the two countries. It was to this specific agreement as violating the general principle concerning the exploitation of mandate countries to which the United States government is believed to have taken exception.

### OUR NAVY WILL HAVE WORLD PRIMACY

CHARLESTON, W. Va., Aug. 30.—Asserting that delay in ratification of the peace treaty had "prevented any cessation in naval enlargement," Secretary Daniels, declared in an address here today there had been no change in the plan to carry American naval development forward to the point where it "will give our navy world primacy."

The secretary's address was made at the celebration of third anniversary of the breaking of ground for the big naval armor and projectile plant here. "We are not only completing this great plant," Secretary Daniels said, "but we are building enormous docks and other needed shore facilities elsewhere and we are constructing eighteen dreadnaughts and battle cruisers with a dozen other powerful ships which, in effective fighting power will give our navy world primacy."

## RIOTERS TURN BELFAST INTO BLAZING INFERNO

### Catholic Owned Stores and Public Houses Are Destroyed

### RIOTING WAS WORST IN CITY'S HISTORY

BELFAST, Aug. 30.—The Shankhill district of Belfast late tonight was a blazing inferno. Nearly a score of fires had been started, and virtually all the grocery stores and public houses owned by Catholics in the district were being destroyed.

The police fired on the crowd during the disturbance inflicting several casualties. At five o'clock this evening a minor battle started in Royal Avenue with the Belfast telegraph office as its center. A crowd of Sinn Feiners crept down Liberty Street from Garraick Hill and opened revolver fire upon the Unionists in the avenue who replied vigorously. The windows adjacent to the fighting were crowded with spectators.

Today's rioting was the worst in the city's history and was probably the first to take place in broad daylight. The victims again were numerous and brought the dead up to sixteen. In excess of 100 persons have been more or less seriously injured during the disorders and there have been 130 fires since last Wednesday.

### OLD FRENCH FORTRESS OPENED AS STATE PARKS

Springfield, Ill.—Restoration of Fort de Chartres, an old French stronghold, just completed with a legislative appropriation of \$12,250, has opened to the public this morning. The fort was built in 1718 and rebuilt in 1756 at a cost of \$1,000,000. Its huge masonry covered four acres.

It was surrendered to the British in 1765. In the third year of the British rule, the first common law court in the Mississippi Valley was established there. Fort de Chartres continued in undisputed use then until a freshet burst upon it in 1772 and washed away one side of the fortification. The restored fortress is four miles east of the present village of Prairie de Rocher.

## FREEZING PROCESS FOR FRUIT PRESERVATION

Fresh Berries and Cherries in Midwinter Possible By Freezing Process, According to Department of Agriculture Experts.

WASHINGTON.—Fresh berries and cherries in frozen condition, the experts of the Department of Agriculture announce after extensive experiments. Successful methods of storing fruits and berries in frozen condition have been demonstrated and, the government experts say, these should be more fully utilized in relieving the market of surplus receipts of highly perishable fruits while in sound, edible condition. They declare that preservation by freezing is cheaper than canning, especially when tin containers are costly, as at present, and an important industry of steady development is looked for in this line.

Fruit held at proper temperatures, the experts say, has a more natural flavor than when canned or dried and is fully as satisfactory as fresh fruit, is superior to canned dried fruit in making ice creams and sherbets, and for cooking in the form of pies, preserves, jellies and other desserts and confections.

Strawberries, red and black raspberries, blackberries, loganberries, blueberries, gooseberries, currants, and sour cherries have been found to keep successfully after being frozen. Berries can be frozen in the crates in which marketed in temperature from 10 degrees Fahrenheit to zero and below and withdrawn from cold storage when wanted. The fruits become waterlogged when taken out and collapse and therefore must be used immediately. Government experts say, however, that they retain their natural flavor and in every way are comparable to the best fresh products.

### KNIGHTS OF COLUMBUS DELEGATES VISIT ROME

ROME, Aug. 30.—(By The Associated Press.)—The shrine among the trees of the Vatican garden, where stands the beautiful statue of the Madonna Della Guardia the patron of Genoa, the birthplace of Pope Benedict XIV and Christopher Columbus, today the scene of an outdoor mass and communion celebrated by the pontiff for the entire body of American Knights of Columbus now visiting Rome.

Almost with the break of day the knights and their ladies drove up the long road on the west side of St. Peter's to the iron gates of the Vatican gardens. Then men were attired in evening dress and the women in black dresses and wearing veils. At seven o'clock there was a procession of the canons of St. Peter's in their colored silk gowns and the papal choir in their white cassocks.

When Pope Benedict finished the administration of the sacrament, he took a seat in a chair in front of the shrine, and surrounded by his court. After the ceremonies had concluded the pontiff walked to his carriage and was driven back to St. Peter's amid a blare of trumpets.

## WRITES OF BOY'S STATE FAIR SCHOOL

James William Rice, Morgan County, Gives Impressions of It—Was Only Morgan County Boy N in Attendance.

The article given hereunder was written by James William Rice, a Morgan county boy who attended the Boy's State Fair school. Each boy who attends the school must write an article about the school which is to be published in the daily newspaper in his home community. The boy was the only representative from Morgan county and his article is well written. It follows:

The Boys' State Fair School is an institution, the purpose of which is the advancement of Agriculture through the state by the education of boy delegates, chosen from every county in the state. This school was founded through the efforts of certain eminent men, foremost among whom was the late Col. Mills and from the beginning has been an unquestioned success. This is the eleventh session of the school and is comprised this year of about 250 boys.

The site of the camp is the summit of a knoll in the southwest corner of the State Fair Grounds. The tents on the grounds, each occupied by from three to five boys, grouped together and arranged in rows, look like a small city. A pleasant spirit is cultivated among the boys and altogether things move with unity and, due to the military influence, with precision.

As the school is composed, for the most part, of country boys, a special interest is taken in the subjects of study, which are largely agricultural. The problem of keeping up the fertility of the soil, together with the subjects of Farm Accounting and Farm Mechanics are of especial interest to me. The lectures we have had on these divisions of farm life have been comprehensive and of a compelling interest. The instructors are from the State University being specialists along their lines. A person has some liberty in the selection of the work he is to do.

Being offered a choice of five subjects, I selected Modern Farm Interests for special study. The day of automotive farming has undoubtedly arrived and a person who has some education in this has a certain advantage over others. The problems of raising maximum crops and at the same time maintaining the fertility of the soil is also one of importance. The talks on these subjects were enlightening and instructive to a high degree, giving the pupils of the school a rather intensive knowledge in a short time.

I shall always recall with pleasure the week that I spent at the Boys' State Fair School learning the principles of agriculture and associating with other boys from all over the state. To my mind, the Boys' School is the greatest feature of the Illinois State Fair, in that it offers a study of the subjects of agriculture during the week of the Fair, giving a person the opportunity of learning something and at the same time enjoying himself.

## BARN FIRED BY LIGHTNING BURNS

Barn on Ash Property in Murrayville Burns—Everett Pennell, Tenant, Has Loss of \$2,000.

Murrayville, Aug. 30.—A barn on the Ash place here occupied by Everett Pennell was set afire by lightning about 4 o'clock this morning and totally destroyed together with the contents. The fire started during a heavy storm and when Mr. Pennell discovered the fire the entire building was enveloped in flames. A number of horses escaped the lightning as Mr. Pennell had let the barn door open so the horses could go into the barn lot. They were huddled against the fence badly frightened, but none of them hurt.

Mr. Pennell had a large quantity of hay and grain in the barn which was a total loss. He also lost eight sets of harness, an Oakland touring car, an Oakland truck and a storm buggy. His loss will run around \$2,000 which is partially covered by insurance, so he does not know just how much he had.

The barn was probably worth \$500, and it is not known whether or not there was any insurance.

**FOX WILL DISPOSES  
OF LARGE ESTATE**  
The will of T. U. Fox was filed for probate Monday in the office of County Clerk G. L. Riggs. The will was drawn Jan. 9, 1920, and the testator named his daughter, Erma, and his son, Ulysses, as executors of the will. The witnesses to the signature were J. Allerton Palmer and L. E. Jordan. Mr. Fox left a large estate. A farm of 435 acres is left to his wife, Mrs. Hattie Fox, for life. This bequest is in addition to cash and considerable personal property.

The sum of \$15,000 each is bequeathed to Lester Martin and Evelyn Martin Sibert, who are grandchildren of the deceased. Other bequests are to Erma Fox, farm 163 acres; Ulysses Fox, farm of 97 acres, the elevator and store buildings at Sinclair; Lyman Fox, 131 acres.

The executors are directed to pay over to C. A. Johnson and James Weir Elliott as trustees, \$61,600 now invested in bonds and mortgages. This is to be held until the son, Jason Fox, becomes of age and at that time is to be invested in two farms, one of which will become the property of Jason Fox and the other the property of Mary Louise Fox.

A tract of 61 acres is also left in the hands of the trustees for later distribution among the five children.

## HAPPILY TELLS HER EXPERIENCE TO HELP OTHERS

Hoping Many Will Take Advice Salvation Army Worker Describes Remarkable Benefits Trutona Gave Her.

Peoria, Ill., Aug. 30.—A striking example of the humanitarian spirit which characterizes the Salvation Army is to be found in the following endorsement of Trutona, by Mrs. Lydia Nolan, a well-known Salvation Army worker, who lives in Peoria, at 1000 North Madison street. She says: "For the past twenty years I had suffered from constipation, liver trouble, and stomach derangement. Then my system became generally broken down, after I had influenza and with my other troubles it looked like everlasting suffering for me. I'd often be unable to eat, and I would have such severe headaches. The little food I did eat always hurt me."

"If I wrote a pamphlet I could not say enough for Trutona, and what it has done for me. My stomach is in good order now and my appetite is excellent. But, better still, is none of the food ever hurts me any more. My kidneys are much better than I hoped for, and my constipation is a thing of the past. Don't be afraid of Trutona, people, for it's a wonderful tonic, and you'll be convinced of that fact, I'm sure, if you'll just give it a trial."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorant. It has been declared peerless as a treatment for stomach, liver and bowel troubles.

Trutona is sold in Jacksonville by Coover & Shreve, by Wyle Drug Co., Franklin, Ill., and Wyle Drug Co., Waverly, Ill.—Adv.

Skin Sufferers Do Not Want Mere Temporary Relief Of course, if you are content to have only temporary relief from the terrifying itching and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments lotions and other local remedies applied to the surface of the skin. Such form of relief, however, can make no progress whatever toward ridding you of the discomfort which often becomes a real torture. But if you desire to free yourself from any form of skin disease, first of all you must realize that any disease must be treated at its source. Real genuine relief from eczema, tetter, scaly eruptions or

any other form of skin irritations cannot be expected until you are free of the germs which cause these disorders. And for this purpose there is no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble. S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. The Boy's State Fair School is an institution, the purpose of which is the advancement of Agriculture throughout the state by the education of boy delegates, chosen from every county in the state. This school was founded thru the efforts of certain eminent men, foremost among whom was the late Col. Mills and from the beginning has been an unquestioned success. This is the eleventh session of the school and is comprised this year of about 250 boys.

The site of the camp is the summit of a knoll in the southwest corner of the State Fair Grounds. The tents on the grounds, each occupied by from three to five boys, grouped together and arranged in rows, look like a small city. A pleasant spirit is cultivated among the boys and altogether things move with unity and, due to the military influence, with precision.

As the school is composed, for the most part, of country boys, a special interest is taken in the subjects of study, which are largely agricultural. The problem of keeping up the fertility of the soil, together with the subjects of Farm Accounting and Farm Management are of especial interest to me. The lectures we have had on these divisions of farm life have been comprehensive and of a compelling interest. The instructors are from the State University being specialists along their lines. A person has some liberty in the selection of the work he is to do.

Being offered a choice of five subjects, I selected Modern Farm Interests for special study. The day of automotive farming has undoubtedly arrived and a person who has some education in this has a certain advantage over others.

The problems of raising maximum crops and at the same time maintaining the fertility of the soil is also one of importance. The talks on these subjects were enlightening and instructive to a high degree, giving the pupils of the school a rather intensive knowledge in a short time. I shall always recall with pleasure the week that I spent at the Boy's State Fair School learning the principles of agriculture and associating with other boys from all over the state. To my mind, the Boy's School is the greatest feature of the Illinois State Fair, in that it offers a study of the subjects of agriculture during the week of the Fair, giving a person the opportunity of learning something and at the same time enjoying himself.

## BARN FIRED BY LIGHTNING BURNS

Barn on Ash Property in Murrayville Burns—Everett Pennell, Tenant, Has Loss of \$2,000.

Murrayville, Aug. 30.—A barn on the Jane Ash place here occupied by Everett Pennell was set afire by lightning about 4 o'clock this morning and totally destroyed together with the contents.

The fire started during a heavy storm and when Mr. Pennell discovered the fire the entire building was enveloped in flames. A number of horses escaped the lightning as Mr. Pennell had left the barn door open so the horses could go into the barn lot. They were huddled against the fence badly frightened, but none of them hurt.

Mr. Pennell had a large quantity of hay and grain in the barn which was a total loss. He also lost eight sets of harness, an Oakland touring car, an Oakland truck and a storm buggy. His loss will run around \$2,000 which is partially covered by insurance, though he does not know just how much he had.

The barn was probably worth \$500, and it is not known whether or not there was any insurance.

## FOX WILL DISPOSES OF LARGE ESTATE

The will of T. U. Fox was filed for probate Monday in the office of County Clerk G. L. Riggs. The will was drawn Jan. 9, 1920, and the testator named his daughter, Erma, and his son, Ulysses, as executors of the will. The witnesses to the signature were J. Allerton Palmer and L. F. Jordan. Mr. Fox left a large estate. A farm of 435 acres is willed to his wife, Mrs. Hattie Fox, for life. This bequest is in addition to cash and considerable personal property.

The sum of \$15,000 each is bequeathed to Lester Martin and Evelyn Martin Sibert, who are grandchildren of the deceased. Other bequests are to Erma Fox, farm 163 acres; Ulysses Fox, farm of 97 acres, the elevator and store buildings at Sinclair; Lyman Fox, 131 acres.

The executors are directed to pay over to C. A. Johnson and James Weir Elliott as trustees, \$61,600 now invested in bonds and mortgages. This is to be held until the son Jason Fox, becomes of age and at that time is to be invested in two farms, one of which will become the property of Jason Fox and the other the property of Mary Louise Fox. A tract of 61 acres is also left in the hands of the trustees for later distribution among the five children.

Tired all the time; Weary and worn out night and day.

Back aches; head aches. Your kidneys are probably weakened.

You should help them at their work. Let one who knows tell you how.

Amos May, prop. barber shop, N. Main St., Jacksonville, says: "I suffered a lot with kidney trouble and at times my back pained terribly. It was all I could do to get through shaving my customers. The trouble seemed to affect my heart and caused shortness of breath. I felt tired out and some one suggested Doan's Kidney Pills. They weren't long in bringing relief and after I had taken three boxes, I was feeling well and I haven't been troubled since."

## CHILD RUN DOWN BY AUTO SUNDAY NIGHT

Seven Years Old Daughter of Mr. and Mrs. R. Y. Gibson Seriously Injured—Auto Driven by Isaac Moxon.

Virginia Gibson, seven years old daughter of Mr. and Mrs. R. Y. Gibson residing southeast of the city was run down by an automobile driven by Isaac Moxon at Nichols park Sunday evening and seriously injured.

The child attempted to cross the road on the bridge when the accident occurred. She received a fracture of the skull, a fracture of the jaw and a fracture of the left arm, besides cuts and bruises. Both eyes were swollen shut.

Immediately after the accident the child was removed to the Veterans tent on the Chautauqua grounds and given first aid by several physicians who were on the ground. She was then taken to Passavant hospital.

An X-ray was taken Monday which revealed the injuries as indicated above. Dr. J. W. Hairgrove is in charge of the case. It was stated last night that the patient was resting as well as could be expected and unless complications appear she will recover.

## WILL LAY HIGH SCHOOL CORNERSTONE

Interesting Ceremonial is Planned for Next Friday Afternoon

While arrangements have not been fully completed it is the present purpose of the board of education to have the laying of the corner stone of the new high school building next Friday afternoon. It was the original intention to have this ceremony at a later time but the progress of the building is such that the contractors wish to have the stone put in place.

The committee in charge of arrangements on behalf of the board includes President Lippincott, H. A. Perrin, superintendent of the schools, and Charles Fiedler, secretary of the board. It is the intention to have an impressive program but the full details have not been arranged.

### MRS. C. M. DUER ILL

The many Jacksonville friends of Mrs. C. M. Duer will be sorry to know of her serious illness. Mrs. Duer is at her farm home near Diverson in Sangamon county and is suffering from a form of meningitis. Her son, Rev. James M. Duer, of Clarksville, Tenn., reached his mother's home Sunday morning and a daughter, Mrs. John Lamb, is expected from Kansas today.

Reports from Mrs. Duer Monday were somewhat more encouraging than on Sunday when Mr. and Mrs. Clark Stevenson of Orleans drove to Diverson.

## ROBERT E. WIDMAYER PASSED AWAY SUNDAY

Prominent Resident of Cass County for Many Years—Brother of the Late Charles H. Widmayer of This City.

Virginia, Aug. 30.—(Special to The Journal.)—Robert E. Widmayer prominently identified with the business life of Virginia and Cass county for nearly half a century, died at a Springfield hospital Sunday morning at 2:25 o'clock.

He had been in failing health for several months but his condition had not been regarded as serious. He entered the hospital about ten days ago. Death resulted from heart trouble.

Mr. Widmayer was born in Germany, August 9, 1853, and died on his birthday, at the age of 67 years. He came to this country when a child and the family for a time resided in Chicago. They then resided in Jacksonville where Mr. Widmayer was engaged in business before coming to Virginia. He has been engaged in the meat business in Virginia and also operated two farms and was a large buyer of stock.

About forty years ago Mr. Widmayer was united in marriage in Jacksonville to Miss Cornelia Wiegand, who survives. He also leaves one son, George Widmayer, who is associated with the banking house of Petelich, Skiles and Company in this city; two daughters, Mrs. Albert Morris of Chandlerville, and Mrs. Helen Cotts, of Crawfordsville, Ind. There also survive, one brother, William, of Hampshire, Kane county, and one

## HAPPILY TELLS HER EXPERIENCE TO HELP OTHERS

Hoping Many Will Take Advice Salvation Army Worker Describes Remarkable Benefits Trutona Gave Her.

Peoria, Ill., Aug. 30.—A striking example of the humanitarian spirit which characterizes the Salvation Army is to be found in the following endorsement of Trutona, by Mrs. Lydia Nolan, a well-known Salvation Army worker, who lives in Peoria, at 1000 North Madison street. She says:

"For the past twenty years I had suffered from constipation, liver trouble, and stomach derangement. Then my system became generally broken down, after I had influenza and with my other troubles it looked like everlasting suffering for me. I'd often be unable to eat, and I would have such severe headaches. The little food I did eat always hurt me.

"If I wrote a pamphlet I could not say enough for Trutona, and what it has done for me. My stomach is in good order now and my appetite is excellent. But, better still, is none of the food ever hurts me any more. My kidneys are much better than I hoped for, and my constipation is a thing of the past. Don't be afraid of Trutona, people, for it's a wonderful tonic, and you'll be convinced of that fact, if you'll just give it a trial."

Trutona is really a medicine of unusual merit. It is unsurpassed as a reconstructive agency, system purifier and body invigorant. It has been declared peerless as a treatment for stomach, liver and bowel troubles.

Trutona is sold in Jacksonville by Coover & Shreve, by Wyle Drug Co., Franklin, Ill., and Wyle Drug Co., Waverly, Ill.—Adv.

## Skin Sufferers Do Not Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrifying itching and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments lotions and other local remedies applied to the surface of the skin. Such form of treatment, however, can make no progress whatever toward ridding you of the discomfort which often becomes a real torture.

But if you desire to free yourself from any form of skin disease, first of all you must realize that any disease must be treated at its source. Real genuine relief from eczema, tetter, scaly eruptions or any other form of skin irritations cannot be expected until you are free of the germs which cause these disorders. And for this purpose there is no remedy that gives more satisfactory results than S.S.S., the fine old blood remedy that goes down to the source of every blood disorder and routs out the germs which cause the trouble.

S.S.S. is sold by all druggists. Begin taking it today, and if you will write a complete history of your case, our medical director will give you expert advice without charge. Address Chief Medical Adviser, 821 Swift Laboratory, Atlanta, Ga.—Adv.

### CHAUTAUQUA HAS COME TO CLOSE

Last Day's Program of Ninth Assembly Drew Large Audiences.

The ninth annual assembly of the Jacksonville chautauqua came to a close Sunday night. The weather conditions on the final day were ideal and the attendance correspondingly large. C. L. Mathis had charge of the Sunday school hour at 10 o'clock and the sermon later was by Rev. W. R. Johnson.

At 2:15 o'clock the Chicago Operatic Co. gave a concert program, and appeared again at night. The singers in this company are all musicians of large ability and experience. They sang regularly at the Sunday evening club in Chicago and one of the group is the soloist at St. James' Methodist church. Their programs here were of great excellence.

The afternoon lecture was by Dr. Willett of the divinity school of Chicago university. Dr. Willett is a ripe scholar and his lecture, in which he emphasized the thought that the proof of Christ's divinity is found in the lives of men, was at once forceful and eloquent.

A motion picture followed the night concert program.

The assembly program on each of the ten days gave proof of wise management and the desire of the directors to furnish the people of Jacksonville and surrounding country with the best available talent.

### ROUTINE BUSINESS BEFORE CITY COUNCIL

Will Take Part in Labor Day Celebration—G. P. Brown Is Plumbing Board Member—Park Board Confirmed.

The regular meeting of the city council was held Monday night with Mayor Crabtree, Aldermen Cain, Flynn, Moore, McGinnis and Ehnie present. Practically all of the business transacted was routine in character. The annual report of the library board was received and placed on file and the board was commended for the high class work carried on at the library.

The report of R. A. Gates showing the receipts and expenditures of the city for the six months period was received and placed on file.

Alderman Moore of the fire committee commended the firemen for the excellence of the work done at Illinois college when Sturtevant hall was partially burned. The trustees of the college have expressed themselves as very much pleased with the work done.

Alderman Moore also made reference to a new walk at Diamond Grove cemetery which has been built from the receiving vault to the driveway.

#### Sidewalk Talk.

Alderman McGinnis called attention to the fact that a number of property owners have failed to construct walks where ordered and said that this was not fair to those residents who have complied with the ordinance. He thought that the city engineer, to whom the matter was referred several weeks ago, should be called upon for an immediate report.

The report of Frank Tendick, superintendent of the garbage department, showed that expenses for the three months period had been \$2,787.65 and the receipts from the sale of garbage \$157.63.

Alderman Moore called attention to the good work done in the light department by Supt. Stoldt. The reflectors of the electric lights all over the city have been painted black on the outside and white on the inside. This will preserve the metal and will greatly increase the amount of light given.

#### Park Board Members.

Mayor Crabtree appointed members of the park board as follows: term to expire Dec. 31, 1920: Mrs. A. Weihi, A. C. McGinnis; term to expire Dec. 31, 1921: Mrs. George Hollinger, J. J. Brennan; term to expire Dec. 31, 1922: S. W. Nichols.

The mayor presented a communication from journeymen plumbers with reference to the plumbing board which is required by state law. Bernard Gause prior to his death was the secretary of the board. In his place the mayor named George P. Brown and he was confirmed by the council. The board now consists of Alderman C. F. Ehnie, of the health committee; George P. Brown and Leslie Harvey.

**Labor Day Committee Present.** A committee of the Trades Assembly was present, including James Wood, Walter Quinlan and Pat Hayden. The committee extended an invitation to the council to take part in Labor Day events, and the invitation was accepted, with the suggestion that city employees as far as possible also participate.

A complaint from Howard Gully with reference to sidewalks on Mound street to the residence was referred to the highway committee.

A complaint was filed with reference to the Hatfield poultry house and South Mauvaister street because of alleged offensive odors and this case was referred to the mayor and city attorney.

Gabriel Kird, who engages in scavenger work, made some complaint with reference to rules in force at the city dumping ground. This matter was referred to Alderman Ehnie of the sanitary committee. After other informal discussion the council adjourned.

#### FOUR HOLD-UP MEN ARRESTED

### OPERA HOUSE IS UNDER NEW LEASE

F. W. Fischer Will Operate Local House in Connection with Other Theaters—Good Shows are Promised.

As mentioned briefly in a recent issue, F. W. Fischer of Chicago has leased the Grand Opera house and will operate it in connection with theatres in other cities. Mr. Fischer is now in Jacksonville and is making the preliminary arrangements for the season. Tonight's lastest all star minstrel will appear and Friday night Booth Tarkington's "Clarence" will be presented. Clarence was one of the comedy successes of the past season and ran for a number of months at the Blackstone Theatre in Chicago.

Mr. Fischer said yesterday that because of his bookings at Kewanee, LaSalle, Madison, Miss., and in other cities where he is operating, that he is able to secure the best attractions. It is his purpose to make the Grand a popular theatre and he will give the people what they want.

Just as many high class road shows will be booked for the Grand as the people of this city will support. The location of Jacksonville between Chicago and Kansas City is a factor in booking shows and Mr. Fischer has no doubt that this fall and winter will see one of the most attractive and active seasons that the Grand has ever known.

One of the bookings already announced is the opera "Carmen" for Sept. 24, to be staged by one of the best known companies on the road. Mr. Fischer's policy will include the best moving pictures with vaudeville afternoon and evening performances on the days when there are no road show bookings. The popular prices of 10, 20 and 30 cents will be maintained for the motion pictures and vaudeville programs.

Figures Compiled by Price, Waterhouse & Co. Presented in Summary—Showing Growing Expenses of County.

The report of the audit of county books prepared by Price, Waterhouse & Co., is now a matter of record at the court house. This audit is a report of the records of the county clerk, circuit clerk, assessor and treasurer, sheriff and ex officio collector, state's attorney, county superintendent of schools and county coroner, for the period from Dec. 1, 1917, to May 31, 1920.

As a matter of public interest the entire report is published herewith. Possibly the most interesting statements made are that the county spent for the year ending Nov. 1919, \$34,421.60 for one-half of which is recoverable from road districts and that for the year mentioned the excess of expenditures over the income was \$41,935.39.

In one paragraph of the report the auditors mentioned that the county commissioners have charged \$10 for each journey made by automobile on county business, in addition to the statutory remuneration of 50 per mile.

The amounts paid to Mr. Wheeler and Mr. Wyatt on this account total \$210 each. Mr. Wheeler stated yesterday that he and Mr. Wyatt had adopted the plan of using their own cars for special trips and charging the flat sum of \$10 a trip because this plan is more economical for the county. He said that in hiring automobiles from others for the necessary special trips that they had found the charges would be \$15 or more. Subsequently the plan of using their own cars had been adopted.

In referring to the account of assessor and treasurer the report indicates a discrepancy of \$100. W. H. Self, deputy in the office yesterday produced the office book to show that there is an error in the report and that the amount on deposit is exactly the same as the report indicates should be in the account.

Where other differences are shown it is quite possible that officers or their deputies will later explain any apparent discrepancies. The report is given in detail elsewhere in this paper.

#### MET MORGAN COUNTY PEOPLE IN THE NORTH

A few days since when Dr. Ruth Fairbank of this city boarded a steamer at Duluth she had the pleasure of meeting Mr. and Mrs. William Goebel of this city and Mr. and Mrs. Wesley Robinson of Alexander. Dr. Fairbank is enjoying a very pleasant visit here enroute to the east.

#### BABY SCORED 100 POINTS

Mr. and Mrs. Harvey D. Gaines visited his parents, Mr. and Mrs. Grant Gaines of Church street, the past week, and also took in the state fair. They took along their two months old baby and while the little one could not be entered in competition because of her age, she scored 100 points in an examination.

#### DIED IN NEBRASKA

J. A. Carille died recently at his home in Nebraska. He was a member of the First Missouri cavalry and went from this county to be buried in Nebraska, where he had been living most of the time since leaving Jacksonville.

#### FROM CALIFORNIA

Miss Ruth Bailey of the faculty of the School for the Deaf has returned to Jacksonville after a visit in San Diego, Cal., where she has spent the summer months.

### PLAN TO ENTERTAIN GOOD ROADS MEN

Delegates on Way to Mississippi Valley Highway Convention Expected Here Sept. 16th—Banquet in Their Honor.

Good road boosters representing the Mississippi Valley Highway association will be in Jacksonville in force Thursday night, Sept. 16, and remain the city's guests until Friday morning. Members of the Morgan County Good Roads association held a meeting at the Dunlap House to arrange for the coming of the visitors. President Riley says he is advised that there will be 30 or 40 visitors, traveling in 15 to 20 automobiles. They are coming from New Orleans, La.; Jackson, Miss., and other states south of St. Louis and are to stop in Jacksonville enroute to the ninth annual convention of the Mississippi Valley highway, to be held in St. Paul, Sept. 20 and 21.

They are to leave St. Louis on the morning of the 16th and to arrive here in the evening. Friday night they are to spend in Bloomington, Saturday night in Olweil, Iowa, and on the next day will reach St. Paul.

It is very much hoped that Jacksonville will arrange for a delegation of at least five to join this sociability tour and make the journey to St. Paul. Last night it was decided that a banquet will be given in honor of the visitors here by the Morgan County Good Roads association and by the automobile dealers. J. G. Berger and William Batz were named as a committee of arrangements for the banquet. Another committee including C. N. Priest, J. F. Claus and L. T. Potter was named to sell tickets and have charge of some other matters relating to the meeting.

Details have not been fully worked out but it is certain that the good roads people will be well taken care of here in Jacksonville and every effort will be made to have the city represented at the St. Paul convention.

### SUBMARINE TACTICS ON LAKE MICHIGAN

Lake Will Become Field for Practice of Submarine Tactics If Navy Department Commissions Two More Submarine Chasers.

CHICAGO. — Lake Michigan will become a field for practice of tactics used in running down submarines, providing the navy department grants a request from naval reserve officers for the commissioning of two more submarine chasers.

One chaser, the S. C.-419, is already in service here and four more are lying in the North avenue basin ready to be put in commission after slight repairs. The naval reservists hope to commission a full unit of three chasers to carry out anti-submarine tactics which they learned when attached to the Plymouth patrol in the North Sea.

Lieut. Nathaniel Rubinkam, who is in charge of the anti-submarine drill here has asked for full equipment of wireless, radio phone, listening devices, guns and depth charges for three boats.

If Lieut. Rubinkam's plans are carried out Great Lakes freighters downbound from Superior with ore or upbound from Chicago with coal or grain will take the place of submarines as prey. With hydrophone listening devices the propellers of the big freighters can be heard under water a dozen miles away and the "mosquito fleet," keeping in touch with each other by radio, phone, will be able to locate and chart the ships.

Many Chicago reservists, who find it hard to get away for the usual fifteen days summer cruise on the larger training ships, are keeping in practice by taking the S. C.-419 out for one day practice trips. Hardly a Sunday passes without the chaser shoving off for a cruise up the lake, and her weather beaten battle grey has become a familiar sight in nearly every port as far north as Ludington and Mackinac.

### CHAUTAUQUA HAS COME TO CLOSE

Last Day's Program of Ninth Assembly Drew Large Audiences.

The ninth annual assembly of the Jacksonville chautauqua came to a close Sunday night. The weather conditions on the final day were ideal and the attendance correspondingly large. C. L. Mathis had charge of the Sunday school hour at 10 o'clock and the sermon later was by Rev. W. R. Johnson.

At 2:15 o'clock the Chicago Operatic Co. gave a concert program, and appeared again at night. The singers in this company are all musicians of large ability and experience. They sang regularly at the Sunday evening club in Chicago and one of the group is the soloist at St. James' Methodist church. Their programs here were of great excellence.

The afternoon lecture was by Dr. Willett of the divinity school of Chicago university. Dr. Willett is a ripe scholar and his lecture, in which he emphasized the thought that the proof of Christ's divinity is found in the lives of men, was at once forceful and eloquent.

A motion picture followed the night concert program.

The assembly program on each of ten days gave proof of wise management and the desire of the directors to furnish the people of Jacksonville and the surrounding country with the best available talent.

**WILL MEET TODAY**  
The Golden Rule Club will meet this afternoon at 2:30 with Mrs. D. L. McCarthy, 935 North Main street. A good attendance is desired. Business of importance will be transacted.

**WILL TEACH IN LIVINGSTON**

### ROUTINE BUSINESS BEFORE CITY COUNCIL

Will Take Part in Labor Day Celebration—G. P. Brown is Plumbing Board Member—Park Board Confirmed.

The regular meeting of the city council was held Monday night with Mayor Crabtree, Aldermen Cain, Flynn, Moore, McGinnis and Ehnie present. Practically all of the business transacted was routine in character. The annual report of the library board was received and placed on file and the board was commended for the high class work carried on at the library.

The report of R. A. Gates showing the receipts and expenditures of the city for the six months period was received and placed on file.

Alderman Moore of the fire committee commended the firemen for the excellence of the work done at Illinois college when Sturtevant hall was partially burned. The trustees of the college have expressed themselves as very much pleased with the work done.

Alderman Moore also made reference to a new walk at Diamond Grove cemetery which has been built from the receiving vault to the driveway.

#### Sidewalk Talk.

Alderman McGinnis called attention to the fact that a number of property owners have failed to construct walks where ordered and said that this was not fair to those residents who have complied with the ordinance. He thought that the city engineer, to whom the matter was referred several weeks ago, should be called upon for immediate report. Mayor Crabtree said he would personally give the matter some attention.

The report of Frank Tendick, superintendent of the garbage department, showed that expenses for the three months period had been \$2,787.65 and the receipts from the sale of garbage \$157.63.

Alderman Moore called attention to the good work done in the light department by Supt. Stoldt. The reflectors of the electric lights all over the city have been painted black on the outside and white on the inside. This will preserve the metal and will greatly increase the amount of light given.

#### Park Board Members.

Mayor Crabtree appointed members of the park board as follows: term to expire Dec. 31, 1920: Mrs. A. Wehl, A. C. Metcalf; term to expire Dec. 31, 1921: Mrs. George Hollinger, J. J. Brennan; term to expire Dec. 31, 1922: S. W. Nichols.

The mayor presented a communication from journeymen plumbers with reference to the plumbing board which is required by state law. Bernard Gauss prior to his death was the secretary of the board. In his place the mayor named George P. Brown and he was confirmed by the council. The board now consists of Alderman C. F. Ehnie, of the health committee; George P. Brown and Leslie Harvey.

**Labor Day Committee Present.**  
A committee of the Trades Assembly was present including James Wood, Walter Quinlan and Pat Hayes. The committee extended an invitation to the council to take part in Labor Day events, and the invitation was accepted, with the suggestion that city employees as far as possible also participate.

A complaint from Howard Cully with reference to sidewalk walks on Mound avenue near his residence was referred to the highway committee.

A complaint was filed with reference to the Hatfield poultry house and South Mauvasterre street because of alleged offensive odors and this case was referred to the mayor and city attorney.

Gabriel Kird, who engages in scavenger work, made some complaint with reference to rules in force at the city dumping ground. This matter was referred to Alderman Ehnie of the sanitary committee. After other informal discussion the council adjourned.

### OPERA HOUSE IS UNDER NEW LEASE

F. W. Fischer Will Operate Local House in Connection with Other Theaters—Good Shows are Promised.

As mentioned briefly in a recent issue, F. W. Fischer of Chicago has leased the Grand Opera house and will operate it in connection with theatres in other cities. Mr. Fischer is now in Jacksonville and is making the preliminary arrangements for the season. Tonight Lasses all star minstrels will appear and Friday night Booth Tarkington's "Clarence" will be presented. Clarence was one of the comedy successes of the past season and ran for a number of months at the Blackstone Theatre in Chicago.

Mr. Fischer said yesterday that because of his bookings at Kewanee, LaSalle, Madison, Miss., and in other cities where he is operating, that he is able to secure the best attractions. It is his purpose to make the Grand a popular theatre and he will give the people what they want.

Just as many high class road shows will be booked for the Grand as the people of this city will support. The location of Jacksonville between Chicago and St. Louis and Chicago and Kansas City is a factor in booking shows and Mr. Fischer has no doubt that this fall and winter will see one of the most attractive and active seasons that the Grand has ever known.

One of the bookings already announced is the opera "Carmen" for Sept. 24, to be staged by one of the best known companies on the road. Mr. Fischer's policy will include the best moving pictures with vaudeville afternoon and evening performances on the days when there are no road show bookings. The popular prices of 10, 20 and 30 cents will be maintained for the motion pictures and vaudeville programs.

### COUNTY RECORDS AUDIT MADE PUBLIC MONDAY

Figures Compiled by Price, Waterhouse & Co. Presented in Summary—Showing Growing Expenses of County.

The report of the audit of county books prepared by Price, Waterhouse & Co., is now a matter of record at the court house. This audit is a report of the records of the county clerk, circuit clerk, assessor and treasurer, sheriff and ex officio collector, state's attorney, county superintendent of schools and county coroner, for the period from Dec. 1, 1917, to May 31, 1920.

## DEMPSEY AND MOSKE TAKE REST MONDAY

BENTON HARBOR, Mich., Aug. 30.—Jack Dempsey and Billy Moske rested today, neither the champion nor the challenger doing any boxing for fear of going stale before their championship match next Monday. Dempsey's only work during the day was a five mile run. He announced that he now weighed 189½ and that he would wind up his training Friday, resting Saturday and Sunday. Moske, however, is not satisfied with his present weight, 192, for he said he expects to drop five pounds before he steps into the ring. Saturday will see the end of his training.

## DISCUSS NEW WAYS OF OBTAINING GASOLINE

American Chemical Society in Meeting at Chicago, Sept. 6 to Discuss New Ways of Obtaining Gasoline.

CHICAGO. — New ways of obtaining gasoline, including the extraction of it direct from natural gas, will be described at the sixtieth general meeting of the American Chemical Society opening here Sept. 6, it is announced. How more power can be obtained from the derivatives of petroleum forms one of the important subjects of discussion. Dr. A. C. Fieldner, supervising chemist of the chemical section of the Pittsburgh experiment station of the United States Bureau of Mines, and his associates, A. A. Straub and G. W. Jones, have prepared an elaborate report on "Gasoline Losses Due to Incomplete Combustion in Motor Vehicles." It will be shown, the society reports, that the automobilist can get far more power out of a given quantity of gasoline than he has been accustomed to obtain.

Another paper to be given in the fuel symposium describes how artificial gas can be produced in larger quantities and at lower cost by enriching it with natural gas in regions where that vapor is available. Utilization of the large deposits of lignite in this country as a substitute for coal will be discussed.

In the cellulose symposium a number of speakers will discuss the paper famine and the news print situation and suggest methods by which production can be increased by conserving wood pulp supplies and also by employing new substances in paper manufacture.

Much time will be given to discussion of the production of sugar in the division of sugar chemistry. A new source will be indicated by Charles A. Gamble in his papers entitled, "The Sugar Industry of Peru."

Henry T. Rainey hereby announces his candidacy for Congress, from the 20th District, subject to the decision of the Democratic voters at the primary election.

For Representative

I hereby announce myself a candidate for the Republican nomination for member of the general assembly from the 45th district, subject to the primary election, September 15.

JACOB FRISCH.

S. E. Moore of Williamsville; Sangamon county, a farmer and former member of the board of supervisors, hereby announces his candidacy for membership in the general assembly from this district, subject to the decision of the Republican primary election, September 15.

Searcy For Representative.

As a candidate for representative, 45 senatorial district, I want to appeal to Morgan county Republicans for their support at the primary, Wednesday, September 15. I am the only service man on either ticket, though I appeal to you on whatever merit I may possess. My service, if nominated and elected, will be to Morgan and Sangamon counties alike. Yours for the good of Illinois.

EARL B. SEARCY.

For State's Attorney I hereby announce myself a candidate for the Republican nomination for State's Attorney, subject to the decision of the voters in the primary election in September.

# Burnett M. Chipperfield

## Republican Candidate for United States Senator

**BURNETT M. CHIPPERFIELD** was born at Dover, Bureau County, Illinois, the son of a pioneer Methodist Clergyman of this State. He was educated in the public schools of Illinois and attended Hamline University.

He is a trial lawyer by profession—admitted to practice in all the courts of the State and the United States. He has given freely of his time to public service—lectured and spoken for years on public subjects and occasions, always without compensation.

Was elected City Attorney of Canton, Illinois, and afterwards elected as State's Attorney of Fulton County. Was President of the States Attorneys' Association of Illinois; has served on many important Committees of the Bar Association of Illinois; was President of the American Society of Military Law, and is a member of the American Bar Association.

Was in the Illinois Legislature eight years, and was Chairman of the Judiciary Committee. Was also Chairman of the Submerged and Shore Lands Legislative Committee that did much to preserve the Lake Shore for the people of Chicago, and the rivers and lakes for the people of Illinois. During his service there, he was interested in labor and humanitarian measures. He was the author of the Convict Labor Law, taking convict labor out of competition with free labor. He there handled and advocated much of the mining legislation desired by the United Mine Workers of America. Was the author of the bill creating the Surgical Institution for Crippled Children, and many other measures looking to an improvement of living conditions in the State of Illinois.

Served as a member of the Congress of the United States, representing the State of Illinois at large. Was a member of the Rules Committee of the House of Representatives of the United States, a distinction rarely, if ever, accorded a new member of Congress.

Was a candidate for the nomination for United States Senator from Illinois in 1917. At the outbreak of the war, although he had actively commenced his campaign, he stated that he conceived it to be his duty to give his service to his country, and withdrew his candidacy "until a more propitious time," and early in 1917 entered the Army of the United States.

As an assistant to General Crowder, he helped to organize the Army of the United States for service in the war with the Central Powers, and was stationed in Chicago for that purpose. When this organization was well under way, he asked to be relieved from that duty that he might be sent to an active Division for overseas duty. Was assigned to the 33rd (Illinois) Division, and went with that Division to France early in the year 1918. The second day after the Division arrived in France, it was sent to the front and re-

mained there on active duty until the Armistice. During this time, he was promoted to Lieutenant Colonel for meritorious service.

After the Armistice, he was ordered into Germany with the Army of Occupation, being attached to the 3rd Army Corps. He was placed in charge of the Civil Administration of affairs of the occupied area of Germany across the Rhine. He was also made Superior Judge for that area. Was honorably discharged from the service in the summer of 1919.

Colonel Chipperfield was given numerous citations for his Army service, receiving them from General Pershing, General George Bell, Jr., and others, and was commended in writing by every General with whom he served. General Pershing awarded him a citation for "exceptionally meritorious and conspicuous service." He was also awarded a citation for "Gallantry in action against the enemy."

He is a member of the American Legion, Post No. 16.

Colonel Chipperfield is interested in agriculture and farming, and conducts near his home an extensive farm where he has given much time in developing the Aberdeen Angus breed of cattle.

He has taken much interest in educational matters, and during the period of construction and organization of the Western Illinois State Normal at Macomb, Illinois, acted as Secretary of its Board of Trustees.

He has distinguished himself as a citizen, lawyer, orator, Member of the Legislature, Member of Congress and as a soldier in the United States Army.

He would also distinguish himself in the United States Senate.

His candidacy presents the only opportunity to place a service man in the United States Senate.

Was honorably discharged from the service in the summer of 1919.

Colonel Chipperfield was given numerous citations for his Army service, receiving them from General Pershing, General George Bell, Jr., and others, and was commended in writing by every General with whom he served. General Pershing awarded him a citation for "exceptionally meritorious and conspicuous service." He was also awarded a citation for "Gallantry in action against the enemy."

He is a member of the American Legion, Post No. 16.

Colonel Chipperfield is interested in agriculture and farming, and conducts near his home an extensive farm where he has given much time in developing the Aberdeen Angus breed of cattle.

He has taken much interest in educational matters, and during the period of construction and organization of the Western Illinois State Normal at Macomb, Illinois, acted as Secretary of its Board of Trustees.

He has distinguished himself as a citizen, lawyer, orator, Member of the Legislature, Member of Congress and as a soldier in the United States Army.

He would also distinguish himself in the United States Senate.

His candidacy presents the only opportunity to place a service man in the United States Senate.

The superiority of Nu-Bone Cor-  
sets is due to their distinct differ-  
ence from all others—features  
they have which no other corsets  
can have. This difference is due  
to the Patented Nu-Bone Stay  
which is the only woven wire stay  
in existence. The machines that  
weave the three or five strands of  
finest piano wire into the Nu-Bone  
Stay are patented, owned and op-  
erated by the Nu-Bone Corset Com-  
pany only. The Stays are used  
only in Nu-Bone Corsets. Nu-  
Bone Corsets are made-to-measure  
—also kept in stock. Call, write

## AUDIT REPORT MADE ON COUNTY BOOKS

The Honorable Board of County Commissioners, Morgan County, Illinois.

Dear Sirs:

In accordance with your instructions, we have made an examination of the records of the undermentioned officers of Morgan County, Illinois, for the period December 1, 1917 to May 31, 1920:

County Clerk.  
Circuit Clerk.  
Assessor and Treasurer.  
Sheriff and ex-officio Collector.  
State's Attorney.  
County Superintendent of Schools.

County Coroner  
and have prepared therefrom the following attached exhibits.

Statement of Current Financial Position at May 31, 1920.

Exhibit A.  
Income and Expenditure Accounts for the two years and six months ending May 31, 1920, supported by Exhibits B-1 and B-2.

Exhibit B.  
Statement of Special Funds at May 31, 1920.

Exhibit C.  
We have the following comments to offer on accounts now submitted:

STATEMENT OF CURRENT FINANCIAL POSITION—Exhibit A:

No heirs to the estate of the late Patrick Cunningham having been traced, his estate accrues to the County. The property is at present in the hands of the Public Administrator, but we understand that steps are being taken to have the same transferred to the County.

Patrick Cunningham died November 29, 1913, but so far as we could ascertain no rent on the South Clay avenue property was collected by the County prior to March 1920. Since that date a rental of \$12.00 per month has been received. We have verified, by certificate from the depositor, the balance in bank on this account as May 31, 1920.

Owing to the fact that numerous invoices, vouchers, and other data could not be procured to us, we have not been able to verify the payments for oil purchased for roads. This oil was supplied to the various Road Districts in the county on the understanding that the cost should be borne equally by the County Board and the respective Road Districts. The following statement has been prepared from the records and has been partially verified by us:

Payments for oil, including freight and demurrage thereon.

Year ending November 30, 1918 ..... \$ 4,948.00

Year ending November 30, 1919 ..... 34,421.60

..... \$39,369.60

Recoverable from Road Districts

One half of \$39,369.60 as above ..... \$19,684.80

Less—Amounts collected to May 31, 1920 ..... \$12,841.28

Balance, due by Road Districts ..... \$ 6,843.52

Of this amount, the sum of \$2,652.91 was collected in July 1920, but from information supplied to us it appears improbable that the balance will be recovered in full.

Probate Fees and Guardianship Fees constitute the major portion of the fees earned but unpaid. We have included in this amount only such fees as are, in the opinion of the County Clerk and the Circuit Clerk, good and collectible.

We have shown the balances in the hands of the Sheriff and Circuit Clerk as due from them, rather than cash in bank for the reason that, while all other records of these officers were placed at our disposal, and were found to be in order, we were not afforded the facilities necessary to verify these balances as being in bank. The \$42,705.74 due by the Sheriff is made up of Taxes (\$38,015.51) and Fees, etc. (\$4,660.23).

In verifying the balances due by the County Treasurer (General Fund) and by the County Clerk, viz., \$2,800.24 and \$5,622.41 respectively, we observed that the records of the County Treasurer showed a balance of \$2,800.24 in bank while the bank certified to a balance of only \$2,700.24. We could not ascertain how this difference had arisen, and on account of the former Treasurer having taken with him all paid checks pertaining to his term of office, we were precluded from following the matter up. The cash in bank to the credit of the County Clerk was verified by a certificate obtained

direct from the depository and the cash on hand by actual count on August 2, 1920.

So far as we were able to ascertain, all liabilities at May 31, 1920 other than the Bonded Indebtedness of \$40,000.00 referred to later in this report, have been included in the attached statement.

We have included in the Statement of Current Financial Position only those funds which are available for the general purpose of the County, while funds which can be disbursed only for specific purposes are dealt with later in this report.

Income and Expenditure Accounts—Exhibit B

In preparing these statements we have placed all items in the period in which they relate, and have eliminated from the income all inter-office earnings, such as County Clerk's fees for attending meetings. Circuit Clerk's fees for attendance in Court, as these items do not add to the income of the County.

We examined the records of the Collector, County Clerk, Circuit Clerk, and State's Attorney, and verified the Taxes, Fees, etc., collected and remitted to the Treasurer by these officers.

With reference to the disbursements generally we would mention that up to March 1919, it was the practice in the County Clerk's office to destroy warrants when redeemed and also the invoices relating thereto, and that the late Treasurer, Mr. W. A. Masters, took with him when he relinquished office, all cancelled checks up to November 30, 1918. We have, therefore, not been able to obtain full information regarding a large proportion of the payments made.

Expenditures have occasionally been incurred without having due regard to the appropriations made therefor by the County Board, with the result that some of these have been exceeded, necessitating the diverting of appropriations for other purposes.

During the year ending November 30, 1919, the sum of \$43,880.50 was disbursed on roads and bridges, against an appropriation of \$17,000, while expenditures on State Aid Roads, as far as we could ascertain, amounted to \$442.00, against an appropriation of \$10,000. To avoid any misunderstanding some action should be taken by the County Board whenever it is evident that specific appropriations are insufficient.

Owing to the absence from Jacksonville of the Superintendent of the Tuberculosis Sanatorium, we were unable to complete our examination of the expenditures thereon. We believe the figures given in the attached statement are approximately correct, but in accordance with your request, we will render a separate report regarding this fund when the necessary facilities can be made available to us.

We ascertained that, during the period October 1919 to May 1920, the County Commissioners received \$10.00 for each journey made by automobile on County business, in addition to the statutory remuneration thereof of 5 cents per mile. The amounts drawn on this account are:

Hon. Charles N. Wyatt ..... \$210.00

Hon. George A. Wheeler ..... 210.00

During the year ending November 30, 1919, Mr. C. A. Boruff, the former County Clerk, was retained by the County Commissioners as a deputy County Clerk, though he failed to take the oath of office until October 4, 1919. His remuneration was fixed by the then Commissioners at \$2500 per annum, and this amount was paid to him. In addition to this, Mr. Boruff withdrew the sum of \$2,378.16 from the funds of the County Clerk, being the amount received for the computation of the 1918 taxes. As the County Clerk, and not his deputy, is entitled to be remunerated for these services, this expenditure would not appear to be in order, although \$1,500 of the amount in question was authorized by the then County Board. However, no authority appears to exist for the balance of \$878.16 which we are informed Mr. Boruff withdrew in the absence of the County Clerk, this warrant being merely endorsed by the County Board.

As will be seen from the Income and Expenditure Account, the expenditure during the year ending November 30, 1919 was largely in excess of the income. As a result the County was obliged in the latter half of 1919 to issue anticipation warrants pending collection of taxes early in 1920, the interest thereon amounting to \$194.40 during the year ending November 30, 1919, and \$1,567.25 during the half year ending May 31, 1920.

The remaining items of expenditure appear to call for no comment.

SPECIAL FUNDS AS AT MAY 31, 1920, Exhibit C.

In addition to the items in Exhibit A, the following funds were on hand at May 31, 1920, and were verified by us, with one exception.

Soldiers' Monument Fund—\$6,862.88.

In order to provide for the erection of a monument to the memory of the men of the County who took part in the Civil War of 1861-65, a tax amounting to \$38,000 was levied in September 1917, the net amount collected being \$35,350.66. The contract for erection was originally awarded to the Jacksonville Monument Company at \$31,000, but in deference to the wishes of the Old Soldiers' Committee this was subsequently cancelled, and awarded to Messrs. Crunell, Morrison and Walker at the same amount. Reference to the summarized statement below will show that of the balance on hand of \$8862.88, \$5,000 falls to be

paid to the contractors on completion of the monument.

Taxes collected ..... \$35,350.66

Deduct payment made: Crunell, Morrison & Walker, on account of erection of monument ..... \$26,000.00

F. P. Wilbert, supervising architect ..... 1,500.00

C. E. McDougall, for supplying names ..... 118.50

W. N. Hargrove ..... 250.00

City Park Board for removing pagoda ..... 175.00

Miscellaneous exp. .... 444.28

Balance on hand, subject to payment of \$5,000 on completion of contract ..... \$ 8,862.88

Tuberculosis Sanatorium Fund ..... \$ 5,693.75

As stated earlier in this report, we have not yet been able to obtain the necessary data to enable us to verify this fund. A separate report will be forwarded on completion of our examination of these records.

County Bond Fund

A tax is levied annually to provide for retirement of the County Bonds to which reference is made later in this report, and on this account there were on hand the following balances at May 31, 1920:

Sec. of State, Springfield, Ill. .... \$ 2,598.93

Taxes collected by Sheriff, but not paid to Sec. of State at May 31, 1920 ..... 8,424.26

..... \$11,023.19

From this amount there was due on June 15, 1920, \$5,000 for retirement of bonds, and \$1,600 for interest to that date, leaving a surplus of \$4,423.19 to be carried forward to next year.

Dog License Fund—\$1,162.81

1917 Bal. on hand ..... \$1,753.71

Ad. licenses collected to May 31, 1920, after deduction of commissions, etc. .... 5,948.10

..... \$7,701.81

Deduct: Claims paid to taxpayers for sheep, etc., killed to May 31, 1920 ..... \$4,039.00

1918, Nov. 26, Transfer to General Fund ..... 2,500.00

..... \$6,539.00

1920, May 31, Balance in hands of the county treasurer ..... \$1,162.81

In addition to the balance shown above, licenses amounting to \$1,718 had been collected by the sheriff, but not paid over to the treasurer at May 31, 1920.

With reference to the transfer of \$2,500.00 to the general fund, the statutes of Illinois appear to provide for transfer of such balance as has been held in the dog license fund for a period of three years. The balance which had remained in the fund for three years prior to November 26, 1918 was \$1,251.15, the transfer of this being \$1,248.06 in excess of that allowed by law. We would suggest that this excess be repaid to the dog license fund.

Trust Funds—\$4,073.80

These are funds received by the treasurer from administrators, and are held by him pending the issue of orders for their disposal.

Equal Benefit Fund—\$200.00

This amount has been on deposit in bank for several years, having been transferred to the custody of the present treasurer when he assumed office in December, 1918. We were unable to obtain any information as to the origin of, or reason for, the fund.

Miscellaneous Funds

Non-High School Fund

Balance on hand for account of School No. 119 ..... \$1,939.04

Inheritance Tax Fund—Treasurer's commissions, etc., re inheritance taxes ..... 1,880.44

Court Fee Fund—Witness fees, etc., unpaid ..... 717.17

Institute Fund—subscriptions in hand on account of teachers' vacation school ..... 761.18

..... \$5,297.83

Bonded Indebtedness

In order to provide for the retirement of bonds falling due in 1907, an issue of \$100,000 4 per cent Funding Bonds was made in that year, the interest being payable June 15th annually. In accordance with the terms of the issue, bonds amounting to \$5,000 were redeemed June 15, 1908, and a similar amount on June 15th annually, since that date.

Bonds aggregating \$3,000 had therefore been retired at May 31, 1920, leaving \$40,000 still outstanding. As requested by you we endeavored to ascertain the present owners of the bonds, but have been advised by the auditor of public accounts that he is unable to furnish this information.

The original issue of bonds was made by the County in 1887, to provide funds for the erection of the court house. This issue, together with an issue made in 1887, has been entirely redeemed. In this connection it may be of interest to note that the original cost of the bonds appears to have been approximately \$155,000, as shown below:

Am't. of contract for erection ..... \$147,000.00

Cost of lots 74 and 75 ..... 7,500.00

Iron fence, furniture, painting, etc., approximately ..... 3,500.00

..... \$158,000.00

During the course of our audit we satisfied ourselves that all taxes collected on behalf of the schools, road districts, and cities of the county have been duly paid over to the proper authorities, but we have not made any examination of the records of these authorities.

We shall be glad to afford you any further information you may require.

Yours faithfully,

## AUDIT REPORT MADE ON COUNTY BOOKS

The Honorable Board of County Commissioners, Morgan County, Illinois.

Dear Sirs: In accordance with your instructions, we have made an examination of the records of the undermentioned officers of Morgan County, Illinois, for the period December 1, 1917 to May 31, 1920:

County Clerk.  
Circuit Clerk.  
Assessor and Treasurer.  
Sheriff and ex-officio Collector.  
State's Attorney.  
County Superintendent of Schools.

County Coroner and have prepared therefrom the following attached exhibits. Statement of Current Financial Position at May 31, 1920. Exhibit A.

Income and Expenditure Accounts for the two years and six months ending May 31, 1920, supported by Exhibits B-1 and B-2. Exhibit B.

Statement of Special Funds at May 31, 1920. Exhibit C.

We have the following comments to offer on accounts now submitted:

STATEMENT OF CURRENT FINANCIAL POSITION—Exhibit A:

No heirs to the estate of the late Patrick Cunningham having been traced, his estate accrues to the County. The property is at present in the hands of the Public Administrator, but we understand that steps are being taken to have the same transferred to the County.

Patrick Cunningham died November 29, 1913, but so far as we could ascertain no rent on the South Clay avenue property was collected by the County prior to March 1920. Since that date a rental of \$12.00 per month has been received. We have verified, by certificate from the depositary, the balance in bank on this account at May 31, 1920.

Owing to the fact that numerous invoices, vouchers, and other data could not be procured to us, we have not been able to verify the payments for oil purchased for roads. This oil was supplied to the various Road Districts in the county on the understanding that the cost should be borne equally by the County Board and the respective Road Districts. The following statement has been prepared from the records and has been partially verified by us:

Payments for oil, including freight and demurrage thereon.  
Year ending November 30, 1918 ..... \$ 4,948.00  
Year ending November 30, 1919 ..... 34,421.60

..... \$39,369.60

Recoverable from

Road Districts

One half of \$39,369.60

as above ..... \$19,684.80

Less—Amounts collected to May 31,

1920 ..... \$12,841.28

Balance, due by

Road Districts ..... \$ 6,843.52

Of this amount, the sum of \$2,652.91 was collected in July 1920, but from information supplied to us it appears probable that the balance will be recovered in full.

Probate Fees and Guardianship Fees constitute the major portion of the Fees earned but unpaid. We have included in this amount only such Fees as are, in the opinion of the County Clerk and the Circuit Clerk, good and collectible.

We have shown the balances in the hands of the Sheriff and Circuit Clerk as due from them, rather than cash in bank for the reason that, while all other records of these officers were placed at our disposal, and were found to be in order, we were not afforded the facilities necessary to verify these balances as being in bank. The \$12,705.74 due by the Sheriff is made up of Taxes (\$8,045.51) and Fees, etc. (\$4,660.23).

In verifying the balances due by the County Treasurer (General Fund) and by the County Clerk, viz., \$2,800.24 and \$5,622.41 respectively, we observed that the records of the County Treasurer showed a balance of \$2,800.24 in bank while the bank certified to a balance of only \$2,700.24. We could not ascertain how this difference had arisen, and on account of the former Treasurer having taken with him all paid cheques pertaining to his term of office, we were precluded from following the matter up. The cash in bank to the credit of the County Clerk was verified by a certificate obtained

direct from the depositary and the cash on hand by actual count on August 2, 1920.

So far as we were able to ascertain, all liabilities at May 31, 1920 other than the Bonded Indebtedness of \$40,000.00 referred to later in this report, have been included in the attached statement.

We have included in the Statement of Current Financial Position only those funds which are available for the general purpose of the County, while Funds which can be disbursed only for specific purposes are dealt with later in this report.

Income and Expenditure Accounts—Exhibit B

In preparing these statements we have placed all items in the period in which they relate, and have eliminated from the income all inter-office earnings, such as County Clerk's fees for attending meetings. Circuit Clerk's fees for attendance in Court, as these items do not add to the income of the County.

We examined the records of the Collector, County Clerk, Circuit Clerk, and State's Attorney, and verified the Taxes, Fees, etc., collected and remitted to the Treasurer by these officers.

With reference to the disbursements generally we would mention that up to March 1919, it was the practice of the County Clerk's office to destroy warrants when redeemed and also the invoices relating thereto, and that the late Treasurer, Mr. W. A. Masters, took with him when he relinquished office, all cancelled cheques up to November 30, 1918. We have, therefore, not been able to obtain full information regarding a large proportion of the payments made.

Expenditures have occasionally been incurred without having due regard to the appropriations made therefor by the County Board, with the result that some of these have been exceeded, necessitating the diverting of appropriations for other purposes. During the year ending November 30, 1919, the sum of \$43,880 was disbursed on roads and bridges, against an appropriation of \$17,000, while expenditures on State Aid Roads, as far as we could ascertain, amounted to \$442.00, against an appropriation of \$10,000. To avoid any misunderstanding some action should be taken by the County Board whenever it is evident that specific appropriations are insufficient.

Owing to the absence from Jacksonville of the Superintendent of the Tuberculosis Sanatorium, we were unable to complete our examination of the expenditures thereon. We believe the figures given in the attached statement are approximately correct, but in accordance with your request, we will render a separate report regarding this fund when the necessary facilities can be made available to us.

We ascertained that, during the period October 1, 1919 to May 31, 1920, the County Commissioners received \$10.00 for each journey made by automobile on County business, in addition to the statutory remuneration thereof of 5 cents per mile. The amounts drawn on this account are:

Hon. Charles N. Wyatt ..... \$210.00

Hon. George A. Wheeler ..... 210.00

During the year ending November 30, 1919, Mr. C. A. Boruff, the former County Clerk, was retained by the County Commissioners as a deputy County Clerk, though he failed to take the oath of office until October 4, 1919. His remuneration was fixed by the then Commissioners at \$2500 per annum, and this amount was paid to him. In addition to this, Mr. Boruff withdrew the sum of \$2,378.16 from the funds of the County Clerk, being the amount received for the computation of the 1918 taxes. As the County Clerk, and not his deputy, is entitled to be remunerated for these services, this expenditure would not appear to be in order, although \$1,500 of the amount in question was authorized by the then County Board. However, no authority appears to exist for the balance of \$778.16 which we are informed Mr. Boruff withdrew in the absence of the County Clerk; this warrant being merely endorsed by the County Board.

As will be seen from the Income and Expenditure Account, the expenditure during the year ending November 30, 1919 was largely in excess of the income. As a result the County was obligated in the latter half of 1919 to issue anticipation warrants pending collection of taxes early in 1920, the interest thereon amounting to \$194.40 during the year ending November 30, 1919, and \$1,567.25 during the half year ending May 31, 1920.

The remaining items of expenditure appear to call for no comment.

SPECIAL FUNDS AS AT MAY 31, 1920. Exhibit C.

In addition to the items in Exhibit A, the following funds were on hand at May 31, 1920, and were verified by us, with one exception.

Soldiers' Monument Fund—\$6,862.88

In order to provide for the erection of a monument to the memory of the men of the County who took part in the Civil War of 1861-65, a tax amounting to \$36,000 was levied in September 1917, the net amount collected being \$35,350.66. The contract for erection was originally awarded to the Jacksonville Monument Company at \$31,000, but in deference to the wishes of the Old Soldiers' Committee this was subsequently cancelled, and awarded to Messrs. Crunell, Morrison and Walker at the same amount. Reference to the summarized statement below will show that of the balance on hand of \$6862.88, \$5,000 falls to be

paid to the contractors on completion of the monument.

Taxes collected ..... \$35,350.66

Deduct payment made:

Crunell, Morrison &amp; Walker, on account

erection of monument ..... \$26,000.00

F. P. Wilbert, supervising architect ..... 1,500.00

C. E. McDougall, for supplying names ..... 118.50

W. N. Haigrove ..... 250.00

City Park Board for removing park ..... 175.00

Miscellaneous exp. .... 444.28

..... 28,487.78

Balance on hand, subject to payment of

\$5,000 on completion of contract ..... \$ 6,862.88

Tuberculosis Sanatorium Fund ..... \$ 5,633.75

As stated earlier in this report, we have not yet been able to obtain the necessary data to enable us to verify this fund. A separate report will be forwarded on completion of our examination of these funds.

County Bond Fund

A tax is levied annually to provide for retirement of the County Bonds to which reference is made later in this report, and on this account there were on hand the following balances at May 31, 1920:

Sec. of State, Springfield, Ill. .... \$ 2,598.93

Taxes collected by Sheriff, but not paid to Sec. of State at May 31, 1920 ..... 8,424.26

..... \$11,023.19

From this amount there was due on June 15, 1920, \$5,000 for retirement of bonds, and \$1,600 for interest to that date, leaving a surplus of \$4,423.19 to be carried forward to next year.

Dog License Fund—\$1,162.81

1917 Bal. on hand ..... \$1,753.71

Ad. licenses collected to May 31, 1920, after deduction of commissions, etc. .... 5,948.10

..... \$7,701.81

Deduct, Claims paid to taxpayers for sheep, etc., killed to May 31, 1920 ..... \$4,039.00

1918, Nov. 26, Transfer to General Fund ..... 2,500.00

..... \$6,539.00

1920, May 31, Balance in hands of the county treasurer ..... \$1,162.81

In addition to the balance shown above, licenses amounting to \$1,718 had been collected by the sheriff, but not paid over to the treasurer at May 31, 1920.

With reference to the transfer of \$2,500.00 to the general fund, the statutes of Illinois appear to provide for transfer of such balance as has been held in the dog license fund for a period of three years. The balance which had remained in the fund for three years prior to November 30, 1918 was \$1,251.15, the transfer thus being \$1,248.85 in excess of that allowed by law. We would suggest that this excess be repaid to the dog license fund.

Trust Funds—\$4,073.80

These are funds received by the treasurer from administrators, and are held by him pending the issue of orders for their disposal.

Burial Benefit Fund—\$200.00

This amount has been on deposit in bank for several years, having been transferred to the custody of the present treasurer when he assumed office in December, 1918. We were unable to obtain any information as to the origin of, or reason for, the fund.

Miscellaneous Funds

Non-High School Fund

Balance on hand for account of School No. 119 ..... \$1,939.04

Inheritance Tax Fund—Treasurer's commissions, etc., re inheritance taxes ..... 1,880.44

Court Fee Fund—Witness fees, etc., unpaid ..... 717.17

Institute Fund—subscriptions in hand on account of teachers' vacation school ..... 761.18

..... \$5,297.83

Bonded Indebtedness

In order to provide for the retirement of bonds falling due in 1907, an issue of \$100,000 4 per cent Funding Bonds was made in that year, the interest being payable June 15th annually. In accordance with the terms of the issue, bonds amounting to \$5,000 were redeemed June 15, 1908, and a similar amount on June 15th annually since that date.

Bonds aggregating \$60,000 had therefore been retired at May 31, 1920, leaving \$40,000 still outstanding. As requested by you we endeavored to ascertain the present owners of the bonds, but have been advised by the auditor of public accounts that he is unable to furnish this information.

The original issue of bonds was made by the county in 1867, to provide funds for the erection of the court house. This issue, together with an issue made in 1887, has been entirely redeemed. In this connection it may be of interest to note that the original cost of the court house appears to have been approximately \$158,000, as shown below:

Amt. of contract for erection ..... \$147,000.00

Cost of lots 74 and 75 ..... 7,500.00

Iron fence, furniture, painting, etc., approximately ..... 3,500.00

..... \$158,000.00

During the course of our audit we satisfied ourselves that all taxes collected on behalf of the schools, road districts, and cities of the county have been duly paid over to the proper authorities, but we have not made any examination of the records of these authorities.

We shall be glad to afford you any further information you may require.

Yours faithfully,

Price Waterhouse &amp; Co.
